- 2.1 This Agreement sets forth the obligations of each Party with respect to <u>AT&T SOUTHEAST REGION 9-STATE</u>'s provision of certain services, as described herein, to CARRIER (Service(s)).
- Notwithstanding Section 23 below, the Parties acknowledge that this Agreement is intended to be governed by the provisions of 47 U.S.C. §§ 201, 202 and 271. - 4.1 The term of this Agreement shall commence on the Effective Date and shall apply to the <u>AT&T SOUTHEAST REGION 9-STATE</u> territory in the States of Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina and Tennessee. It shall continue in effect thereafter until December 31, 2009.

Alternatively, the Parties shall develop a transition plan to ensure a full transition of all Services on December 31, 2009. In the event the Parties are unable to agree upon a transition plan, <u>AT&T SOUTHEAST REGION 9-STATE</u> may, at its discretion, terminate all or any of the Services at any time after December 31, 2009. In such event, the rates, terms and conditions hereof shall continue to apply to such Services after December 31, 2009, to the date such Services are actually terminated.
- 4.3 In addition to as otherwise set forth in this Agreement, <u>AT&T SOUTHEAST REGION 9-STATE</u> reserves the right to suspend or terminate Service in the event of prohibited, unlawful or improper use of <u>AT&T SOUTHEAST REGION 9-STATE</u> facilities or service, or abuse of <u>AT&T SOUTHEAST REGION 9-STATE</u> facilities.
- 4.4 Except as set forth in Attachment 3 regarding failure to pay for Services, if either Party breaches or defaults on any of the terms, conditions, or covenants of this Agreement, the other Party shall give the breaching Party written notice of

such breach or default. If such breach or default is not cured within ten (10) days after such written notice, then in addition to all other rights and remedies at law, in equity or otherwise, the non-breaching Party may terminate this Agreement without any charge, obligation, or liability whatsoever for such breach, except for payment for Services rendered.

4.5 Upon AT&T SOUTHEAST REGION 9-STATE's termination of this Agreement as specified in this Section, applicable damages shall be assessed, and CARRIER shall be liable for such charges. Upon termination of this Agreement the terms and conditions of this Agreement shall continue to apply for all Services until the date such Services are actually transitioned from this Agreement, or the date that AT&T SOUTHEAST REGION 9-STATE specifies for the completion of the transition, whichever is earlier, (Transition Period). CARRIER shall not be entitled to place any orders for the purchase of Services or make any changes to the Services other than transitioning the Services from this Agreement during the Transition Period. # 5.0 Rates

5.1 CARRIER shall pay the rates set forth in Exhibit A of Attachment 1 of this Agreement in addition to any other charges specifically set forth in this Agreement. # 6.0 Service Level Commitment

6.1 Upon the Effective Date of this Agreement, AT&T SOUTHEAST REGION 9-STATE's performance under this Agreement for Wholesale Switch Port Services and Complex Wholesale Local Platform Services shall be governed by the service level commitments (SLCs) set forth in this Agreement. Except as otherwise stated herein, as of the Effective Date hereof, AT&T SOUTHEAST REGION 9-STATE's performance of this Agreement shall not be subject to any service quality measurement (SQM) plan, payments of remedies in any self-effectuating enforcement mechanism (SEEM) plan or any other penalty plan, performance plan or other similar requirements imposed by a Commission or the FCC. In the event a Commission or the FCC determines that Services provided pursuant to this Agreement are subject to any penalty payment, remedy or service level measure not incorporated in this Agreement, CARRIER, within thirty (30) days of a request from AT&T SOUTHEAST REGION 9-STATE, shall reimburse AT&T SOUTHEAST REGION 9-STATE for any such penalty or other remedy paid by AT&T SOUTHEAST REGION 9-STATE to CARRIER. In the event a Commission or the FCC determines AT&T SOUTHEAST REGION 9-STATE is not entitled to reimbursement of such payment, or AT&T SOUTHEAST REGION 9-STATE is required to pay any penalty, remedies or other such payments to a Commission or the FCC, then upon AT&T SOUTHEAST REGION 9-STATE's request, the Parties shall negotiate an amendment to the prices for Services hereunder. The amended prices shall be applied retroactively to the date the SQM/SEEMs, or other penalty or performance plan, is deemed to have applied to the Services set forth herein. As of the date the amended prices are applicable to this Agreement, AT&T SOUTHEAST REGION 9-STATE shall no longer be responsible for measurement of, or payments associated with, the SLCs described in Attachment 4. Further, CARRIER shall reimburse AT&T SOUTHEAST REGION 9-STATE in an amount equal to the total payments from AT&T SOUTHEAST REGION 9-STATE associated with such SLCs paid as of the date such amended prices are applicable. If the Parties are unable to reach an agreement and execute an amendment within thirty (30) days after AT&T SOUTHEAST REGION 9-STATE's request, AT&T SOUTHEAST REGION 9-STATE may terminate this Agreement in any affected state(s) upon fifteen (15) days written notice to CARRIER. SLCs and consequences for failure to maintain SLCs are as set forth in Attachment 4 of this Agreement.

# 7.0 <u>Commitment</u>

- 7.1 CARRIER will purchase all port/loop switching combinations and switch ports, or any other services or facilities that have the same or similar function as the Wholesale Switch Port Services and Wholesale Local Platform Services, provided in this Agreement and as applicable, provided by <a href="AT&T SOUTHEAST REGION 9-STATE">AT&T SOUTHEAST REGION 9-STATE</a> only pursuant to this Agreement. CARRIER will not purchase port/loop combinations or switch ports, or any other services or facilities that have the same or similar function as the Wholesale Switch Port Services and Wholesale Local Platform Services, provided in this Agreement and as applicable, either directly or indirectly, from <a href="AT&T SOUTHEAST REGION 9-STATE">AT&T SOUTHEAST REGION 9-STATE</a> is the underlying network provider. Notwithstanding the foregoing, this Agreement does not prohibit CARRIER from (1) purchasing standalone loops, or resale services under an <a href="AT&T SOUTHEAST REGION 9-STATE">AT&T SOUTHEAST REGION 9-STATE</a> agreement or tariff; (2) purchasing any services from a third party using the third party's own facilities; or (3) using CARRIER's own facilities.
- 7.2 CARRIER will not transition to unbundled network element loops, in the aggregate, more than five percent (5%) of (i) its Wholesale Local Platform Services purchased under this Agreement, and (ii) unbundled loop/port combinations purchased from <a href="AT&T SOUTHEAST REGION 9-STATE">AT&T SOUTHEAST REGION 9-STATE</a> pursuant to a Section 251 interconnection agreement (UNE-P) lines or Wholesale Local Platform Services lines acquired from third party carriers.
  - 7.2.1 In determining whether, at any given point in time, CARRIER has met the five percent (5%) test set forth in Section 7.1 above, the numerator and denominator shall be calculated as follows:
    - 7.2.1.1 The numerator consists of all lines that have been transitioned to unbundled network element loops from (i) Wholesale Local Platform Services purchased under this Agreement and (ii) UNE-P lines or Wholesale Local Platform Services lines acquired from third party carriers as described in Section 7.1 above and that at the time the calculation is made are still being served by CARRIER using unbundled network element loops purchased from AT&T SOUTHEAST REGION 9-STATE.
    - 7.2.1.2 The denominator consists of all lines that at any time prior to the time that the calculation has been made have been ordered by CARRIER as (i) Wholesale Local Platform Services purchased under this Agreement and (ii) UNE-P lines or Wholesale Local Platform Services lines acquired from third party carriers as described in Section 7.1 above.

#### 8.0 Audits

AT&T SOUTHEAST REGION 9-STATE, in its reasonable discretion and upon no less than ten (10) days notice, may conduct an audit of CARRIER's facilities and records to the extent necessary to confirm compliance with Section 7 above. CARRIER agrees to cooperate with AT&T SOUTHEAST REGION 9-STATE and to provide any information AT&T SOUTHEAST REGION 9-STATE reasonably requests to determine compliance. In the event that the audit reveals noncompliance with the terms of Section 7 above, CARRIER shall reimburse AT&T SOUTHEAST REGION 9-STATE for the costs of the audit and AT&T SOUTHEAST REGION 9-STATE shall have the right to terminate this Agreement pursuant to Section 4 hereof. In the event of such noncompliance, CARRIER's right to cure pursuant to Section 4 includes the obligation to transfer all non-compliant services to Services under this Agreement, in addition to paying AT&T SOUTHEAST REGION 9-STATE the rates set forth in this Agreement for the services that should have been purchased pursuant to this Agreement from the date of the transfer of such services to this Agreement, or the date such service is terminated, whichever is later.

# 9.0 Damages

9.1 The Parties recognize that in the event of CARRIER's breach of this Agreement, damages are difficult, if not impossible, to ascertain, particularly in light of the uncertainty regarding FCC rules and court orders applicable to the Parties and the telecommunications industry. The Parties have included the following terms as a liquidated damages provision pursuant to O.C.G.A. § 13-6-7. Such damages constitute a reasonable estimate of actual damages and are not intended by either Party to be a penalty. Except as otherwise stated herein, neither Party may terminate this Agreement prior to expiration of the term hereof except as expressly permitted elsewhere in this Agreement. If CARRIER terminates this Agreement for any reason other than AT&T SOUTHEAST REGION 9-STATE's material

breach hereof, prior to the expiration hereof, or if <u>AT&T SOUTHEAST REGION 9-STATE</u> terminates this Agreement for CARRIER's material breach, the total amount of damages due <u>AT&T SOUTHEAST REGION 9-STATE</u> shall be the greater of (1) the number of Wholesale Switch Port Services and Wholesale Local Platform Services in service at the time of breach; or (2) the number of Wholesale Switch Port Services and Wholesale Local Platform Services in service at the time of termination, multiplied by, for each month and partial month remaining in the term of the Agreement subsequent to the termination, the applicable fixed monthly recurring charges for such Services that CARRIER would have been obligated to pay <u>AT&T SOUTHEAST REGION 9-STATE</u> had the Agreement not been terminated.

#### 10.0 Court Ordered Requests for Call Detail Records and Other Subscriber Information

- Subpoenas Directed to AT&T SOUTHEAST REGION 9-STATE. Where AT&T SOUTHEAST REGION 9-STATE provides the Services for CARRIER, AT&T SOUTHEAST REGION 9-STATE shall respond to subpoenas and court ordered requests delivered directly to AT&T SOUTHEAST REGION 9-STATE for the purpose of providing call detail records when the targeted telephone numbers belong to CARRIER's End Users. Billing for such requests will be generated by AT&T SOUTHEAST REGION 9-STATE and directed to the law enforcement agency initiating the request. AT&T SOUTHEAST REGION 9-STATE shall maintain such information for CARRIER End Users for the same length of time it maintains such information for its own End Users.
- Subpoenas Directed to Customer. Where AT&T SOUTHEAST REGION 9-STATE is providing to CARRIER Services, then CARRIER agrees that in those cases where CARRIER receives subpoenas or court ordered requests regarding targeted telephone numbers belonging to CARRIER's End Users, and where CARRIER does not have the requested information, CARRIER will advise the law enforcement agency initiating the request to redirect the subpoena or court ordered request to AT&T SOUTHEAST REGION 9-STATE for handling in accordance with Section 10.1 above.
- In all other instances, where either Party receives a request for information involving the other Party's End User, the Party receiving the request will advise the law enforcement agency initiating the request to redirect such request to the other Party.

#### 11.0 Liability and Indemnification

- 11.1 <u>Customer Liability</u>. In the event that CARRIER consists of two (2) or more separate entities as set forth in this Agreement and/or any Amendments hereto, or any third party requests Services under this Agreement using CARRIER's codes, all such entities shall be jointly and severally liable for the obligations of CARRIER under this Agreement.
- 11.2 <u>Liability for Acts or Omissions of Third Parties.</u> <u>AT&T SOUTHEAST REGION 9-STATE</u> shall not be liable to CARRIER for any act or omission of another entity providing services to CARRIER.
- Limitation of Liability. Except for any indemnification obligations of the Parties hereunder, <u>AT&T SOUTHEAST REGION 9-STATE</u>'s liability to CARRIER for any loss, cost, claim, injury, liability or expense, including reasonable attorneys' fees relating to or arising out of any cause whatsoever, whether based in contract, negligence or other tort, strict liability or otherwise, relating to the performance of this Agreement, shall not exceed a credit for the actual cost of the Services not performed or improperly performed. Any amounts paid to CARRIER pursuant to Attachment 4 hereof shall be credited against any damages otherwise payable to CARRIER pursuant to this Agreement.
  - 11.3.1 <u>Limitations in Tariffs</u>. CARRIER may, in its sole discretion, provide in its tariffs and contracts with its End Users and third parties that relate to any Service provided or contemplated under this Agreement, that, to the maximum extent permitted by applicable law, CARRIER shall not be liable to the End User or third party for (i) any loss relating to or arising out of this Agreement, whether in contract, tort or otherwise, that exceeds the amount CARRIER would have charged that applicable person for the service that gave rise to such loss and (ii) indirect, incidental or consequential damages. To the extent that CARRIER elects not to place in its tariffs or contracts such limitations of liability, and <u>AT&T SOUTHEAST REGION 9-STATE</u> incurs a loss as a result thereof, CARRIER shall indemnify and reimburse <u>AT&T SOUTHEAST REGION 9-STATE</u> for that portion of the loss that would have been limited had CARRIER included in its tariffs and contracts the

limitations of liability that <u>AT&T SOUTHEAST REGION 9-STATE</u> included in its own tariffs at the time of such loss, except to the extent caused by <u>AT&T SOUTHEAST REGION 9-STATE</u>'s gross negligence or willful misconduct.

- 11.3.2 <u>AT&T SOUTHEAST REGION 9-STATE</u> shall not be liable for damages to CARRIER's terminal location, equipment or End User premises resulting from the furnishing of a Service, including, but not limited to, the installation and removal of equipment or associated wiring, except to the extent caused by <u>AT&T</u> SOUTHEAST REGION 9-STATE's negligence or willful misconduct.
- 11.3.3 Under no circumstance shall <u>AT&T SOUTHEAST REGION 9-STATE</u> be responsible or liable for indirect, incidental, or consequential damages, including, but not limited to, economic loss or lost business or profits, damages arising from the use or performance of equipment or software, or the loss of use of software or equipment, or accessories attached thereto, delay, error, or loss of data. In connection with this limitation of liability, CARRIER recognizes that <u>AT&T SOUTHEAST REGION 9-STATE</u> may, from time to time, provide advice, make recommendations, or supply other analyses related to the Services described in this Agreement, and, while <u>AT&T SOUTHEAST REGION 9-STATE</u> shall use diligent efforts in this regard, CARRIER acknowledges and agrees that this limitation of liability shall apply to the provision of such advice, recommendations, and analyses.
- 11.3.4 To the extent any specific provision of this Agreement purports to impose liability, or limitation of liability, on <a href="AT&T SOUTHEAST REGION 9-STATE">AT&T SOUTHEAST REGION 9-STATE</a> different from or in conflict with the liability or limitation of liability set forth in this Section, then with respect to any facts or circumstances covered by such specific provisions, the liability or limitation of liability contained in such specific provision shall apply.
- 11.4 Indemnification for Certain Claims. Except to the extent caused by AT&T SOUTHEAST REGION 9-STATE's gross negligence or willful misconduct, AT&T SOUTHEAST REGION 9-STATE, its Affiliates, parent company and their employees and agents, shall be indemnified, defended and held harmless by CARRIER against any claim, loss or damage arising from CARRIER's use of the Services provided under this Agreement pertaining to (1) claims for libel, slander or invasion of privacy arising from the content of CARRIER's own communications, or (2) any claim, loss or damage claimed by the End User of CARRIER arising from such End User's use or reliance on AT&T SOUTHEAST REGION 9-STATE's Services, actions, duties, or obligations arising out of this Agreement.
- 11.5 <u>Disclaimer</u>. EXCEPT AS SPECIFICALLY PROVIDED TO THE CONTRARY IN THIS AGREEMENT, <u>AT&T SOUTHEAST REGION 9-STATE</u> MAKES NO REPRESENTATIONS OR WARRANTIES TO CARRIER CONCERNING THE SPECIFIC QUALITY OF ANY SERVICES, OR FACILITIES PROVIDED UNDER THIS AGREEMENT. CARRIER DISCLAIMS, WITHOUT LIMITATION, ANY WARRANTY OR GUARANTEE OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, ARISING FROM COURSE OF PERFORMANCE, COURSE OF DEALING, OR FROM USAGES OF TRADE.

# 12.0 Intellectual Property Rights and Indemnification

- No License. No patent, copyright, trademark or other proprietary right is licensed, granted or otherwise transferred by this Agreement. The Parties are strictly prohibited from any use, including but not limited to, in the selling, marketing, promoting or advertising of Telecommunications Services, of any name, service mark, logo or trademark (collectively, the "Marks") of the other Party. The Marks include those Marks owned directly by a Party or its Affiliate(s) and those Marks that a Party has a legal and valid license to use. The Parties acknowledge that they are separate and distinct and that each provides a separate and distinct service and agree that neither Party may, expressly or impliedly, state, advertise or market that it is or offers the same service as the other Party or engage in any other activity that may result in a likelihood of confusion between its own service and the service of the other Party.
- Ownership of Intellectual Property. Any intellectual property that originates from or is developed by a Party shall remain the exclusive property of that Party. Except for a limited, non-assignable, non-exclusive, non-transferable license to use patents or copyrights to the extent necessary for the Parties to use any facilities or equipment (including software) or to receive any Service solely as provided under this Agreement, no license in patent, copyright, trademark or trade secret, or other proprietary or intellectual property right, now or hereafter owned,

controlled or licensable by a Party, is granted to the other Party. Neither shall it be implied nor arise by estoppel. Any trademark, copyright or other proprietary notices appearing in association with the use of any facilities or equipment (including software) shall remain on the documentation, material, product, service, equipment or software. It is the responsibility of each Party to ensure at no additional cost to the other Party that it has obtained any necessary licenses in relation to intellectual property of third parties used in its network that may be required to enable the other Party to use any facilities or equipment (including software), to receive any service, or to perform its respective obligations under this Agreement.

#### 12.3 Intellectual Property Remedies

- 12.3.1 <u>Indemnification</u>. The Party providing a Service pursuant to this Agreement will defend the Party receiving such Service or data provided as a result of such Service against claims of infringement arising solely from the use by the receiving Party of such Service in the manner contemplated under this Agreement and will indemnify the receiving Party for any damages awarded based solely on such claims in accordance with Section 11 preceding.
- 12.3.2 <u>Claim of Infringement</u>. In the event that use of any facilities or equipment (including software), becomes, or in the reasonable judgment of <u>AT&T SOUTHEAST REGION 9-STATE</u> is likely to become, the subject of a third party claim, action, suit, or proceeding based on intellectual property infringement, then <u>AT&T SOUTHEAST REGION 9-STATE</u> shall have the right to terminate, upon reasonable notice, this Agreement with respect to use of, or Services provided through use of, the affected facilities or equipment (including software), but solely to the extent required to avoid the infringement claim.
- 12.3.3 Exception to Obligations. Neither Party's obligations under this Section shall apply to the extent the infringement is caused by: (i) modification of the facilities or equipment (including software) by the indemnitee; (ii) use by the indemnitee of the facilities or equipment (including software) in combination with equipment or facilities (including software) not provided or authorized by the indemnitor, provided the facilities or equipment (including software) would not be infringing if used alone; (iii) conformance to specifications of the indemnitee which would necessarily result in infringement; or (iv) continued use by the indemnitee of the affected facilities or equipment (including software) after being placed on notice to discontinue use as set forth herein.
- 12.3.4 <u>Exclusive Remedy</u>. The foregoing shall constitute the Parties' sole and exclusive remedies and obligations with respect to a third party claim of intellectual property infringement arising out of the conduct of business under this Agreement.

# 13.0 Proprietary and Confidential Information

- Proprietary and Confidential Information. It may be necessary for AT&T SOUTHEAST REGION 9-STATE and CARRIER, each as the "Discloser", to provide to the other Party, as "Recipient", certain proprietary and confidential information (including trade secret information) including but not limited to technical, financial, marketing, staffing and business plans and information, strategic information, proposals, request for proposals, specifications, drawings, maps, prices, costs, costing methodologies, procedures, processes, business systems, software programs, techniques, customer account data, call detail records and like information (collectively the "Information"). All such Information conveyed in writing or other tangible form shall be clearly marked with a confidential or proprietary legend. Information conveyed orally by the Discloser to Recipient shall be designated as proprietary and confidential at the time of such oral conveyance, shall be reduced to writing by the Discloser within forty-five (45) days thereafter, and shall be clearly marked with a confidential or proprietary legend.
- 13.2 <u>Use and Protection of Information</u>. Recipient agrees to protect such Information of the Discloser provided to Recipient from whatever source from distribution, disclosure or dissemination to anyone except employees of Recipient with a need to know such Information solely in conjunction with Recipient's analysis of the Information and for no other purpose except as authorized herein or as otherwise authorized in writing by the Discloser. Recipient will not make any copies of the Information inspected by it.
- 13.3 Exceptions. Recipient will not have an obligation to protect any portion of the Information which:

- 13.3.1 (a) is made publicly available by the Discloser or lawfully by a non-Party to this Agreement; (b) is lawfully obtained by Recipient from any source other than Discloser; (c) is previously known to Recipient without an obligation to keep it confidential; or (d) is released from the terms of this Agreement by Discloser upon written notice to Recipient.
- 13.4 Recipient agrees not to publish or use the Information for any advertising, sales or marketing promotions, press releases, or publicity matters that refer either directly or indirectly to the Information or to the Discloser or any of its affiliated companies.
- The disclosure of Information neither grants nor implies any license to the Recipient under any trademark, patent, copyright, application or other intellectual property right that is now or may hereafter be owned by the Discloser.
- Survival of Confidentiality Obligations. The Parties' rights and obligations under this Section 13 shall survive and continue in effect until two (2) years after the expiration or termination date of this Agreement with regard to all Information exchanged during the term of this Agreement. Thereafter, the Parties' rights and obligations hereunder survive and continue in effect with respect to any Information that is a trade secret under applicable law.

# 14.0 <u>Dispute Resolution</u>

  - 14.1.1 Except as otherwise specifically provided for in this Agreement, no claim may be brought for any dispute arising from this Agreement more than twenty-four (24) months from the date the occurrence which gives rise to the dispute is discovered or reasonably should have been discovered with the exercise of due care and attention.
  - 14.1.2 Notwithstanding anything contained in this Agreement to the contrary, a Party shall be entitled to dispute only those charges which appeared on a bill dated within the twelve (12) months immediately preceding the date on which the Billing Party received notice of such Disputed Amounts.
- 14.2 Alternative to Litigation:
  - 14.2.1 The Parties desire to resolve disputes arising out of this Agreement without litigation. Accordingly, the Parties agree to use the following Dispute Resolution procedures with respect to any controversy or claim arising out of or relating to this Agreement or its breach.
- 14.3 Commencing Dispute Resolution:
  - 14.3.1 Dispute Resolution shall commence upon one Party's receipt of written Notice of a controversy or claim arising out of or relating to this Agreement or its breach. When ordering RCF service, CARRIER will ensure that the following conditions are satisfied:
  - 2.2.1.1 The End User of the Forward-to-Number agrees to receive calls forwarded using the RCF service (if such End User is different from the RCF service End User);
  - 2.2.1.2 The Forward-to-Number is equipped with sufficient capacity to receive the volume of calls that will be generated from the RCF service;
  - 2.2.1.3 The Forward-to-Number is not a public safety number (e.g., 911, fire or police number).
- 2.2.2 In addition to the charge for the RCF service port, <u>AT&T SOUTHEAST REGION 9-STATE</u> shall charge CARRIER the rates set forth in Exhibit A for End Office Switching, Tandem Switching, and Common Transport, including all associated usage incurred for calls from the RCF service telephone number to the Forward-to-Number.
- 2.3 Detailed E911 with Locator Capability.

- 2.3.6 CARRIER will be liable for any errors resulting from the submission of invalid telephone number and address/location data for CARRIER's End Users.

#### 3.0 Wholesale Local Platform Services

- 3.1 Wholesale Local Platform Services provide an end to end Telecommunications Service by combining Wholesale Switch Ports with the loop network component described in this Agreement, which together provide local exchange service for the origination or termination of calls. The loop network component described in this Agreement shall only be provided as part of the Wholesale Local Platform Service. Wholesale Local Platform Services support the same calling and feature attributes as described in the Wholesale Switch Port Services section of this Attachment.
- The following DS0 Wholesale Local Platform Services are available for ordering. For services not currently available CARRIER shall contact their Local Contract Manager and will follow the appropriate <u>AT&T SOUTHEAST REGION 9-STATE</u> processes.
  - 3.2.1 DS0 Wholesale Local Platform Services listed below shall be provisioned with a 2-Wire voice grade port and either a non-designed (SL1) or designed (SL2) 2 wire voice grade loop. Exhibit A and Exhibit B shall list the applicable loops associated with each of the DS0 Wholesale Local Platform Services:
    - 3.2.1.1 DS0 Wholesale Local Platform Service [Direct Inward Dial ("DID")]
    - 3.2.1.2 DS0 Wholesale Local Platform Service [PBX/DID with E911 Call Locator]
    - 3.2.1.3 DS0 Wholesale Local Platform Services listed below shall be provisioned with a 2-Wire ISDN port and a 2-Wire ISDN digital loop:
      - 3.2.1.3.1 DS0 Wholesale Local Platform Service [ISDN/BRI]
- 3.3 DS1 Wholesale Local Platform Services include the following. For services not currently available CARRIER shall contact their Local Contract Manager and will follow the appropriate <a href="AT&T">AT&T</a> SOUTHEAST REGION 9-STATE processes.
  - 3.3.1 <u>DS1 Wholesale Local Platform Service Direct Digital Integration Termination Service (DDITS)</u>. DS1 Wholesale Local Platform Service –DDITS is an arrangement that allows the termination of a 4-Wire DS1 digital loop directly into a digital switch port. It will consist of a DS1 facility that will be terminated into a digital carrier trunk port on a switch. These ports can only be used for DS1 terminations on the trunk side of the switch. A DDITS arrangement can consist of twenty-four (24) DS0 level channels that can be configured as a 2-Way, 2-Way DID with user transfer, 1-Way outward, or 1-Way inward with or without DID service. This service allows for assigning multiple trunk groups (made up of individual channel assignments) within a single digital loop, single trunk groups across multiple digital loops, or combinations of both.
  - 3.3.2 DS1 Wholesale Local Platform Service 4-Wire Integrated Services Digital Network/Primary Rate ISDN (4-Wire ISDN/PRI). DS1 Wholesale Local Platform Service 4-Wire ISDN/PRI is a 4-Wire ISDN DS1 port and 4-Wire DS1 digital loop that is an intraLATA offering supported by the Integrated Services Digital Network (ISDN) architecture. DS1 Wholesale Local Platform Service 4-Wire ISDN/PRI provides an ISDN-based, DS1 access to the PSTN and includes the flexibility of integration of multiple voice and/or data transmission channels on the same line. The service provides connectivity between ISDN compatible Customer Provided Equipment (CPE) and a serving central office. The basic channel structure is twenty-three (23) sixty-four (64) kilobits per second (Kbps) B-Channels and one (1) sixty-four (64) Kbps D-Channel. The End User may activate up to twenty-three (23) B-Channels on the first ISDN/PRI arrangement and up to twenty-four (24) channels on additional 4-Wire ISDN/PRI arrangements. The product offerings are: voice/data (standard), digital data only and inward data option.

3.3.3 DS1 Wholesale Local Platform Service – 4-Wire DS1 Loop with Channelization with Port. DS1 Wholesale Local Platform Service - 4-Wire DS1 Loop with Channelization with Port is a port/loop arrangement consisting of the following four (4) basic components: (a) one (1) 4-Wire DS1 digital loop; (b) one (1) channelization interface device (D4 Channel Bank or equivalent) in the AT&T SOUTHEAST REGION 9-STATE central office; (c) selected central office ports (up to twenty-four (24) per DS1) in the AT&T SOUTHEAST REGION 9-STATE switch; and (d) DS0 feature activation cards (one (1) per DS0) in the AT&T SOUTHEAST REGION 9-STATE channel bank. Each DS1 loop supports any combination of the following four (4) service offerings up to a maximum of twenty-four (24) DS0 channels. The following service offerings are available: (1) a 2-way, combination trunks/trunk groups (line side termination in AT&T SOUTHEAST REGION 9-STATE switch); (2) a 1-way, outward trunks/trunk groups (line side termination in AT&T SOUTHEAST REGION 9-STATE switch); (3) a 1-way, inward trunks/trunk groups, without DID (line side termination in AT&T SOUTHEAST REGION 9-STATE switch).

#### 3.4 E911 Call Locator Capability

- 3.4.1 E911 Call Locator Capability is available as an adjunct service to DS1 Wholesale Local Platform Services ISDN/PRI, DS1 Wholesale Local Platform Service DDITS, DS1 Wholesale Local Platform Services 4-Wire DS1 Loop with Channelization with Port, and DS0 Wholesale Local Platform Services with E911 Call Locator (includes DID and On/Off Premises Extensions).
- 3.4.2 E911 Call Locator Capability allows a PBX switch located on an End User's premises direct access into an E911 tandem office, delivering the telephone number and location of the PBX End User's station number to the appropriate E911 PSAP.
- 3.4.3 E911 Call Locator Capability offers full E911 service to CARRIER's End User's PBX station users. Full E911 service means the actual physical location of the PBX 911 caller and the station telephone number will be identified to the PSAP when a 911 call is made.
- 3.4.4 There are two (2) components to this service: (1) access to the ALI database, which is the database service component of this product. The PBX station information is initiated and maintained by CARRIER or CARRIER's PBX End User in the ALI database; and (2) E911 Call Locator Capability Service Local Channels, which are the paths that carry E911 calls to the E911 tandem. If CARRIER's End User is served via PRI, the E911 calls may travel over either the Primary Rate Interface or over separate CAMA trunks to the E911 tandem, as specified by CARRIER when placing the order for the service. If CARRIER's End User is served by DDITS, 4-Wire Channelization with Port or PBX Trunks, then CAMA trunks must be used.
- 3.4.5 CARRIER can as an option purchase private dedicated trunks at the resale tariff rate installed between the <u>AT&T SOUTHEAST REGION 9-STATE</u> E911 Tandem and CARRIER's Point of Interface (POI), usually an adjunct box located at the PBX. If the PBX supports Primary Rate Interface and the calling stations are DID numbers, then the 911 call can be transmitted using Primary Rate Interface without E911 Call Locator Capability Service Local Channels.
- 3.4.6 CARRIER is responsible for providing the correct E911 tandem information to <u>AT&T SOUTHEAST REGION</u> <u>9-STATE</u> during the ordering and provisioning process.
- 3.4.7 CARRIER is responsible for maintaining individual telephone numbers and corresponding address/location data.
- 3.4.8 CARRIER is responsible for insuring that the End User listed address is the actual physical End User location as mandated by regulatory and public safety agencies (e.g., E911).
- 3.4.9 CARRIER is liable for any error conditions resulting from the submission of invalid telephone number and address/location data for the CARRIER's End Users and the PBX stations.

- 3.4.10 CARRIER will insure that its End User's telephone number can be passed over the appropriate E911 Call Locator Capability Local Service Channels, the Primary Rate Interface trunk group, or direct CAMA trunks to the appropriate E911 Tandem switch.
- 3.4.11 CARRIER or CARRIER's designated representative will work with the third party provider of E911 Call Locator Capability to ensure all information in the ALI database is up-to-date.
- 3.5 On/Off Premises extensions and Different Premises Address extension are available for select DS0 Wholesale Local Platform Services. The rates are as set forth in Exhibit A.
  - 3.5.1 On/Off Premises extensions are station numbers that are associated with an End User's PBX but which are located at a different physical address than the PBX and On/Off Premises extensions require additional loops to provision the Service. The On/Off Premises extension draws its digital tone from the PBX and must dial an access code to access the PSTN via port/loop combinations (PBX trunks) terminating in the CPE PBX.
  - 3.5.2 A Different Premises Address extension consists of one (1) port and two (2) loops with each loop terminating at a different physical address. The Different Premises Address extension draws dial tone directly from the <a href="AT&T SOUTHEAST REGION 9-STATE">AT&T SOUTHEAST REGION 9-STATE</a> central office. It constitutes the same telephone number working at two (2) separate physical addresses.
- 3.6 DS0 Wholesale Local Platform Services Centrex provides an end-to-end Telecommunications Service by combining DS0 Wholesale Switch Ports, a Common Block Program within the Switch, and a loop network component described in this Agreement, which together provide local exchange service for the End User for the origination or termination of calls.
  - 3.6.1 Within the <u>AT&T SOUTHEAST REGION 9-STATE</u> Switch the 2-Wire Voice Grade Ports (Centrex) are programmed into a Common Block of numbers which will partition the Central Office switch to serve a specific customer and as such share certain inherent Centrex functionalities, capabilities and features. The Common Block program is also known as the "Common Block" or the "Centrex Customer Group". The Centrex Common Block defines system level parameters. Common equipment parameters offer the minimum capabilities of the system:
    - 3.6.1.1 Station to Station Calling within the Common Block (intercom calling).
    - 3.6.1.2 Direct Inward Dialing to Stations (DID).
    - 3.6.1.3 Direct Outward Dialing.
    - 3.6.1.4 Touchtone service.
    - 3.6.1.5 Common recorded announcement on interception of calls to unassigned numbers.
  - 3.6.2 Network Access Registers (NARs). A NAR is an optional part of the Common Block programming associated with access outside of the Centrex system. Each NAR provides a single talking path to the PSTN. A NAR can be inbound, outbound or combination. All ports are subject to Switching and Local Interconnection Usage charges. These charges will apply to each Centrex line. Other than to limit access to the PSTN, NARs are not necessary components of DS0 Wholesale Local Platform Service Centrex. NARs will be zero rated on the CARRIER Account. Rearrangements, additions, or removal of NARs will incur the appropriate subsequent activity charges set forth in Exhibit A. New installations can be provisioned with or without NARs at the request of CARRIER.
  - 3.6.3 Centrex feature functionality that is a function of the switch will be available to the Centrex port at the rates set forth in Exhibit A. Feature functionality that has been developed by <u>AT&T SOUTHEAST REGION 9-STATE</u> outside of the function of the Switch, including but not limited to Centrex Control and Centrex Select Features, is separately priced and included in Exhibit A.

- 3.6.4 The Centrex Common Block can be provisioned with a Switch Port to accept/terminate selected ancillary services within the Centrex, including but not limited to FX, Tie Lines, DS1/high cap services, Wide Area Telephone Service (WATS/800 Service), Music on Hold, and Simplified Message Detail Interface. These services are accessed via a dialing code or preprogrammed access as part of the Centrex functionality. Access to the ancillary services will be priced with Wholesale Local Platform Centrex. The ancillary services will be priced separately from Wholesale Local Platform Centrex. Pricing for the ancillary/associated service could be at a negotiated rate, tariff rate, or a combination of both depending on the service.
- 3.6.5 DS0 Wholesale Local Platform Service Centrex shall be provisioned with a 2 wire analog voice grade loop, which is a non-designed 2-Wire loop start circuit that does not have remote access test points.
- 2.7 Loops. The local loop network component is a transmission facility that AT&T SOUTHEAST REGION 9-STATE provides between a distribution frame (or its equivalent) in AT&T SOUTHEAST REGION 9-STATE's central office and the loop demarcation point at an End User premises. Facilities that do not terminate at a demarcation point at an End User premises, including, by way of example, but not limited to, facilities that terminate to another carrier's switch or premises, a cell site, Mobile Switching Center or base station, do not constitute local loops. The loop includes all features, functions, and capabilities of the transmission facilities, including the network interface device, and attached electronics (except those used for the provision of advanced services, such as Digital Subscriber Line Access Multiplexers (DSLAMs)), optronics and intermediate devices (including repeaters and load coils) used to establish the transmission path to the End User's premises, including inside wire owned or controlled by AT&T SOUTHEAST REGION 9-STATE. CARRIER shall purchase the entire bandwidth of the loop and, except as required herein or as otherwise agreed to by the Parties, AT&T SOUTHEAST REGION 9-STATE shall not subdivide the frequency of the loop.
  - 3.7.1 Except as set forth herein, 2-Wire voice grade loops may be provisioned using any type of facility that will support voice grade services. This may include loaded copper, non-loaded copper, digital loop carrier systems, fiber/copper combination (hybrid loop) or a combination of any of these facilities. <a href="AT&T SOUTHEAST REGION 9-STATE">AT&T SOUTHEAST REGION 9-STATE</a>, at any time, in the normal course of maintaining, repairing, and configuring its network, may also change the facilities that are used to provide the loop utilized in conjunction with the Wholesale Local Platform Service. This change may occur at any time. In these situations, <a href="AT&T SOUTHEAST REGION 9-STATE">AT&T SOUTHEAST REGION 9-STATE</a> will only ensure that the newly provided facility will support the same voice grade services provided by the Wholesale Local Platform Services. 2-Wire voice grade loops come in two (2) different service levels Service Level One (SL1) and Service Level Two (SL2).
    - 3.7.1.1 Service Level One (SL1) 2-Wire voice grade loops are 2-Wire loop start circuits, will be non-designed, and will not have remote access test points.
    - 3.7.1.2 Service Level Two (SL2) 2-Wire voice grade loops shall have remote access test points and will be designed with a DLR provided to CARRIER. SL2 circuits can be provisioned with a loop start, ground start or reverse battery signaling.
  - 3.7.2 As specified, certain Wholesale Local Platform services utilize digital loop network components. Digital loops are service specific, will be designed and will be provisioned with test points (where appropriate).
    - 3.7.2.1 The following digital loops shall apply to Wholesale Local Platform Services:
      - 3.7.2.1.1 2-Wire ISDN Digital Loop This loop will be provisioned according to industry standards for 2-Wire Basic Rate ISDN services and will come standard with a test point.
      - 4-Wire DS1 Digital Loop This loop is a designed 4-Wire loop that is provisioned according to industry standards for DS1 or Primary Rate ISDN services and will come standard with a test point.

- 3.7.3 The loop does not include any packet switched features, functions or capabilities.
- 3.7.4 AT&T SOUTHEAST REGION 9-STATE shall not provision Wholesale Local Platform Services over any loop that is comprised entirely of fiber from the distribution frame (or equivalent) in the AT&T SOUTHEAST REGION 9-STATE central office to the demarcation point at the End User's premises.
- 3.7.5 The loop shall be provided to CARRIER in accordance with applicable provisions of Telcordia/ANSI standard technical references.
- 3.7.6 <u>AT&T SOUTHEAST REGION 9-STATE</u> will only provision, maintain and repair the loops to the standards that are consistent with the loop component associated with the Wholesale Local Platform Services.
- 3.8 Loop Tagging
  - 3.8.1 When an <u>AT&T SOUTHEAST REGION 9-STATE</u> technician is required to be dispatched to provision the loop, <u>AT&T SOUTHEAST REGION 9-STATE</u> will tag the loop with the telephone number. When a dispatch is not required to provision the loop, <u>AT&T SOUTHEAST REGION 9-STATE</u> will tag the loop on the next required visit to the End User's location. If CARRIER wants to ensure the loop is tagged during the provisioning process for loops that may not require a dispatch, CARRIER may order Loop Tagging. Rates for Loop Tagging are as set forth in Exhibit A.

# 4.0 Wholesale Switch Port Services and Wholesale Local Platform Services Rates

- 4.1 The rates for Wholesale Switch Port Services and Wholesale Local Platform Services are set forth in Exhibit A and shall include monthly recurring and nonrecurring charges.
  - 4.1.1 For the Wholesale Switch Port, recurring charges apply to the switch port, switch based vertical features, End Office Switching, Tandem Switching and Common Transport pricing elements. Nonrecurring charges apply to the switch port.
  - 4.1.2 For the Wholesale Local Platform Services, recurring charges apply to the switch port, loop, switch based vertical features, End Office Switching, Tandem Switching and Common Transport pricing elements. Nonrecurring charges shall apply to the switch port for a new installation. If, however, the Service is converted from AT&T SOUTHEAST REGION 9-STATE retail, resale, or a loop/port combination provided by AT&T SOUTHEAST REGION 9-STATE to another CLEC, or is an initial new installation of a simple residential service line provisioned at a location where QuickServe is active on the line, the nonrecurring conversion charges shall apply to such conversions. In the scenario of a line provisioned at a QuickServe location, only the first line shall incur the conversion rate. Any additional lines or subsequently ordered lines shall incur new installation first and additional nonrecurring charges.
  - 4.1.3 For the DS0 Wholesale Local Platform Service Centrex, recurring charges apply to the Switch Port, loop, Common Block Program, Centrex Intercom Function, switch based vertical features, End Office Switching, Tandem Switching and Common Transport pricing elements. Nonrecurring charges shall apply to the switch port for a new installation.
  - 4.1.4 Direct Inward Dialing ("DID"), ISDN/BRI and DS0 Wholesale Local Platform Services with E911 Call Locator (including DID and On/Off Premises Extensions) shall include both recurring and nonrecurring charges.
- 4.2 ISDN/PRI, DS1 Wholesale Local Platform Service DDITS, DS1 Wholesale Local Platform Services 4-Wire DS1 Loop with Channelization with Port shall include both recurring and nonrecurring charges.
  - 4.2.1 DS1 Wholesale Local Platform Services also require additional elements, including but not limited to DID number blocks, Superframe Format, D1 channel banks, inter-office channels, for proper provisioning of the particular DS1 Wholesale Local Platform Service. Appropriate recurring and nonrecurring charges for these applicable service specific elements are located in Exhibit A.
- 4.3 The rates for End Office Switching, Tandem Switching and Common Transport are applied based on their use in the transport of an originated or terminated call. Originated calls shall utilize these pricing elements until the terminating

end office is reached for an <u>AT&T SOUTHEAST REGION 9-STATE</u> or resale End User terminated call or until the call reaches the network of a third party on a third party terminated call.

- 4.3.1 AT&T SOUTHEAST REGION 9-STATE may, at its option, move to a single Usage rate element that shall replace the End Office Switching, Tandem Switching and Common Transport rates elements. This rate element is listed as Local Wholesale Switching Usage, per mou in the rate exhibit, Exhibit A. If AT&T SOUTHEAST REGION 9-STATE, at its option, moves to this single rate element, it may require AT&T SOUTHEAST REGION 9-STATE Billing System modifications. If and when those modifications are complete, AT&T SOUTHEAST REGION 9-STATE shall notify CARRIER that the single LWC Usage rate shall apply going forward.
- 4.4 Rates for loops purchased in conjunction with Wholesale Local Platform Services are determined by the zone applicable to the specific loop location.

#### 5.0 Call Related Databases

- 5.1 Call related databases provided under this Agreement shall only be provided with wholesale local circuit switching pursuant to the terms and conditions herein and at the rates set forth in Exhibit A. Database services that are not available pursuant to this Agreement may be available at the rates, terms and conditions set forth in <u>AT&T</u> **SOUTHEAST REGION 9-STATE**'s tariffs.
- 5.2 **AT&T SOUTHEAST REGION 9-STATE**'s Calling Name (CNAM) Database Services
  - 5.2.1 AT&T SOUTHEAST REGION 9-STATE's CNAM database Services provide the ability to associate a name with the calling party's number for any name and number stored in the AT&T SOUTHEAST REGION 9-STATE CNAM database, allowing the End User (to which a call is being terminated and which subscribes to the necessary services) to view the calling party's name before the call is answered.
  - 5.2.2 CARRIER's End Users' names and numbers related to Wholesale Switch Port Services and Wholesale Local Platform Services shall be stored in the <a href="AT&T SOUTHEAST REGION 9-STATE">AT&T SOUTHEAST REGION 9-STATE</a> CNAM database, and shall be available, on a per query basis only, to all entities that launch queries to the <a href="AT&T SOUTHEAST REGION 9-STATE">AT&T SOUTHEAST REGION 9-STATE</a>, at its sole discretion, may opt to interconnect with and query other calling name databases. In the event <a href="AT&T SOUTHEAST REGION 9-STATE">AT&T SOUTHEAST REGION 9-STATE</a> does not query a third party calling name database that stores the calling party's information, <a href="AT&T SOUTHEAST REGION 9-STATE">AT&T SOUTHEAST REGION 9-STATE</a> cannot deliver the calling party's information where the calling party subscribes to any service that would block or otherwise cause the information to be unavailable.
  - 5.2.3 For each CARRIER End User that subscribes to a switch based vertical feature providing calling name information to that End User for calls received, <a href="AT&T SOUTHEAST REGION 9-STATE">AT&T SOUTHEAST REGION 9-STATE</a> CNAM database, or, subject to Section 5.2.1 above, to a third party calling name database, to provide calling name information, if available, to CARRIER's End User. CARRIER shall pay the rates set forth in Exhibit A, on a per query basis, for each query to the <a href="AT&T SOUTHEAST REGION 9-STATE">AT&T SOUTHEAST REGION 9-STATE</a> CNAM database made on behalf of a CARRIER End User that subscribes to the appropriate vertical features that support Caller ID or a variation thereof. In addition, CARRIER shall reimburse <a href="AT&T SOUTHEAST REGION 9-STATE">AT&T SOUTHEAST REGION 9-STATE</a> for any charges <a href="AT&T SOUTHEAST REGION 9-STATE">AT&T SOUTHEAST REGION 9-STATE</a> pays to third party calling name database providers for queries launched to such database providers for the benefit of CARRIER's End Users.
  - 5.2.4 AT&T SOUTHEAST REGION 9-STATE shall bill for CNAM queries the rate set forth in Exhibit A. In the event AT&T SOUTHEAST REGION 9-STATE is unable to bill per query, AT&T SOUTHEAST REGION 9-STATE shall bill CARRIER at the applicable rates set forth in Exhibit A based on a surrogate of two hundred and fifty-six (256) database queries per month per CARRIER's End Users with the Caller ID feature.

7.1 Where <u>AT&T SOUTHEAST REGION 9-STATE</u> provides Wholesale Switch Port Service or Wholesale Local Platform Services to CARRIER, AT&T SOUTHEAST REGION 9-STATE will provide CARRIER with online access to available

telephone numbers as defined by, and in accordance with, applicable FCC rules and regulations on a first come first served basis. CARRIER may designate up to a forecasted six (6) months supply of available numbers as intermediate (an available number provided to CARRIER) telephone numbers per rate center if the following conditions are met:

- 7.1.1 CARRIER must: (1) indicate that all of the intermediate numbers currently held by CARRIER in each rate center where CARRIER will be requesting intermediate telephone numbers have six (6) or less months to exhaust; (2) supply projected monthly telephone number demand on a rate center basis for the coming twelve (12) months for each rate center where CARRIER will be requesting intermediate telephone numbers; and, (3) demonstrate that the utilization level on current intermediate numbers held by CARRIER in the rate center where CARRIER is requesting telephone numbers has reached at least seventy percent (70%). The above information will be provided by CARRIER by submitting to <u>AT&T SOUTHEAST REGION 9-STATE</u> a fully completed "CO Code Assignments Months To Exhaust Certification Worksheet TN Level" (MTE Worksheet), Appendix B to the Central Office Code (NXX) Assignments Guidelines, INC 95-0407-008 for each rate center where CARRIER will be requesting intermediate telephone numbers. The utilization level is calculated by dividing all intermediate numbers currently assigned by CARRIER to End Users by the total number of intermediate numbers held by CARRIER in the rate center and multiplying the result by one hundred (100). After June 30, 2004, rate center utilization level must be at seventy-five percent (75%) (Part F of the MTE Worksheet).
- 7.1.2 If fulfilling CARRIER's request for intermediate numbers results in <u>AT&T SOUTHEAST REGION 9-STATE</u> having to submit a request for additional telephone numbers to a national numbering administrator (either the North American Numbering Plan Administration ("NANPA") CO Code Administration or NeuStar Pooling Administration or their successors), <u>AT&T SOUTHEAST REGION 9-STATE</u> will submit the required numbering request to the national numbering administrator to satisfy CARRIER's request for intermediate numbers. <u>AT&T SOUTHEAST REGION 9-STATE</u> will also pursue all appropriate steps (including submitting a safety valve request (petition) to the appropriate Commission if the numbering request is denied by the national administrator) to satisfy CARRIER's request for intermediate numbers. - 7.2 CARRIER acknowledges that there may be instances where there is an industry shortage of available telephone numbers in the Numbering Plan Area (NPA). These instances occur where a jeopardy status has been declared by NANPA and the industry has determined that limiting the assignment of new numbers is the appropriate method to employ until the jeopardy can be alleviated. In such NPA jeopardy situations where assignment of new numbers is restricted as per the jeopardy guidelines developed by the industry, <u>AT&T SOUTHEAST REGION 9-STATE</u> may request that CARRIER cancel all or a portion of its unassigned intermediate numbers. CARRIER's consent to <u>AT&T SOUTHEAST REGION 9-STATE</u>'s request shall not be unreasonably withheld.

# 12.0 <u>Centralized Message Distribution System (CMDS) Utilizing Revenue Accounting Office (RAO) Hosting</u>

#### 12.1 Definitions

- 12.1.1 CMDS is a national message exchange system administered by Telcordia used to transmit alternately billed calls (e.g., credit card, third number and collect) from the Earning Company, as defined herein, to the Billing Company, as defined herein, to permit the Earning Company and the Billing Company to receive appropriate compensation.
- 12.1.2 Direct Participants are Telecommunications carriers that exchange data directly with other Direct Participants via the CMDS Data Center and may act as host companies (Host) for those Telecommunications carriers that do not exchange data directly via the CMDS Data Center (Indirect Participants).
- 12.1.3 RAO Hosting is a hosting relationship where an Indirect Participant sends and receives CMDS eligible messages to and from its Host, who then interfaces, on behalf of the Indirect Participant, with other Direct Participants for distribution and collection of these messages. RAO Hosting also includes the Direct Participant's provision of revenue settlements functions (compensation) for alternately billed calls based upon reports generated by Credit Card and Third Number Settlement (CATS) and Non-InterCompany Settlement (NICS) as described herein. CATS and NICS are collectively referred to as Intercompany Settlements.
- 12.1.4 The CATS System is a national system administered by Telcordia, used to settle revenues for calls that are sent from one CMDS Direct Participant to another for billing. CATS applies to calls that originate within one Regional Bell Operating Company's (RBOC) territory, as defined at Divestiture, and bill in another RBOC's territory. CATS calculates the amounts due to Earning Companies (i.e., billed revenue less the billing and collection fee). For alternately billed calls, the originating company, whose facilities are used to place the call, is the Earning Company and the company that puts the charges on the End User's bill is the Billing Company.
- 12.1.5 The Non-InterCompany Settlement (NICS) System is the national system administered by Telcordia that is used in the settlement of revenues for calls that are originated and billed by two (2) different local exchange carriers (LEC) within a single Direct Participant's territory to another for billing. # Service Level Commitments (SLCs) for DS0 Wholesale Local Voice Platform Services

#### 1.0 Introduction

1.1 The SLCs as stated in this Attachment 4 shall become effective and apply to Services ordered during and after the first full calendar month following the Effective Date of the Agreement and shall be applied only to <a href="AT&T">AT&T</a>
SOUTHEAST REGION 9-STATE's performance with respect to DSO Wholesale Local Voice Platform Services.

#### 2.0 Reporting Methodology

- 2.1 AT&T SOUTHEAST REGION 9-STATE will self-report CARRIER service performance data (and AT&T SOUTHEAST REGION 9-STATE retail performance data for SLC-4, Maintenance Average Duration) using AT&T SOUTHEAST REGION 9-STATE internal processes to determine performance metrics for DS0 Wholesale Local Voice Platform Services. The reporting period for each metric is a full calendar month. CARRIER data will be collected and reports will be generated on both a regional and a state specific basis for all metrics. In addition, for SLC-4, Maintenance Average Duration, AT&T SOUTHEAST REGION 9-STATE retail data reports will be generated on an AT&T SOUTHEAST REGION 9-STATE regional retail aggregate basis. Reports will display all percentages and averages to two decimal points, using standard rounding rules.
- 2.2 <u>AT&T SOUTHEAST REGION 9-STATE</u> will utilize the reports described above to calculate the performance metrics and associated payments, if any, for the reporting period.

#### 3.0 <u>SLC Methodology</u>

The following SLCs, as defined in this Attachment, will be measured in accordance with the terms and conditions herein. Payments for SLCs, as applicable, shall be paid based upon regional data only within the reporting period. SLCs and applicable remedy payments are as follows:

Service Level Commitments	Per Occurrence Payment
FOC Timeliness (≤3 hours): 95%	\$10*
Installation Appointments Met: 98%	\$25*
Repair Appointments Met: 94%	\$25*
Maintenance Average Duration: < AT&T SOUTHEAST REGION 9 STATE retail aggregate	\$25**

<sup>\*</sup> Per missed occurrence below the stated performance objective as described in Section 5

#### 4.0 SLC Performance Metric Definitions

- 4.1 SLC-1: Firm Order Confirmation (FOC) Timeliness
  - 4.1.1 SLC-1 measures the percentage of Local Service Requests (LSRs) confirmed through the return of a FOC within an interval of three (3) hours or less during the reporting period. The interval for return of a FOC is measured by the elapsed time from receipt of a valid (complete and correct) fully mechanized LSR (date and time stamped in ordering interface gateways) until <u>AT&T SOUTHEAST REGION 9-STATE</u> processes the

<sup>\*\*</sup> Per occurrence below the stated performance objective as described in SLC-4 as described in Section 5

- LSR, generates appropriate service orders and returns a FOC to CARRIER via ordering interface gateways. When multiple FOCs occur on a single LSR, the first FOC is used to measure the interval.
- 4.1.2 The following exclusions apply: 1) LSRs that are identified as Projects as defined in <a href="AT&T SOUTHEAST REGION 9-STATE">AT&T SOUTHEAST REGION 9-STATE</a>'s Local Ordering Handbook, as amended from time to time; 2) Test Transactions/Records; 3) LSRs cancelled by CARRIER prior to a FOC being returned; 4) Scheduled OSS Maintenance; 5) Partially Mechanized LSRs (submitted electronically but processed manually); and 6) Non-Mechanized LSRs (submitted and processed manually).

  - 4.2.1 SLC-2 measures the percentage of total completed installation service orders for which AT&T SOUTHEAST REGION 9-STATE meets the committed due date for service orders completed in the reporting period.

    AT&T SOUTHEAST REGION 9-STATE is considered to have met the committed due date unless the installation date is later than the committed due date and the missed installation appointment is due to an AT&T SOUTHEAST REGION 9-STATE reason. The SLC-2 metric only applies to the first committed due date, regardless of whether subsequent committed due dates are established for the same service order. Calculation of SLC-2 includes service orders requiring dispatches and service orders not requiring dispatches.
  - 4.2.2 The following exclusions apply: 1) Cancelled service orders; 2) Order activities of <u>AT&T SOUTHEAST REGION 9-STATE</u> or CARRIER associated with internal or administrative use of local services (e.g. Record Orders, Test Orders, etc., which may be order types C, N, R or T); 3) Disconnect orders; and 4) Listing orders.
- 4.3 SLC-3: Repair Appointments Met
  - 4.3.1 SLC-3 measures the percentage of closed CARRIER trouble reports within the reporting period where the service is resolved as repaired by the committed date and time. Calculation of the metric includes repairs requiring dispatch and repairs not requiring dispatch.
  - 4.3.2 The following exclusions apply: 1) CARRIER trouble reports cancelled at CARRIER's request; 2) <u>AT&T SOUTHEAST REGION 9-STATE</u> trouble reports associated with internal or administrative service; 3) CARRIER (End User) Provided Equipment (CPE) or CARRIER equipment troubles; 4) Trouble outside <u>AT&T SOUTHEAST REGION 9-STATE</u>'s control; and 5) Informational trouble tickets.
- 4.4 SLC-4: Maintenance Average Duration
  - 4.4.1 SLC-4 measures the average duration of closed CARRIER trouble reports compared to closed <u>AT&T SOUTHEAST REGION 9-STATE</u> End User trouble reports in the reporting period. The duration of a trouble report starts on the date and time of receipt of a trouble report and stops on the date and time the service is resolved as repaired. Calculation of the metric includes trouble reports requiring dispatches and trouble reports not requiring dispatches.
  - 4.4.2 The following exclusions apply: 1) CARRIER trouble tickets cancelled at CARRIER's request; 2) <u>AT&T SOUTHEAST REGION 9-STATE</u> trouble reports associated with internal or administrative service; 3) CARRIER (End User) Provided Equipment (CPE) or CARRIER equipment troubles; 4) Troubles outside AT&T SOUTHEAST REGION 9-STATE's control; and 5) Informational trouble tickets.

Version: 1Q09 - Wholesale Switch Port and Complex WLP Services Agreement - 01/14/09

#### 5.0 <u>Calculation of Occurrences and Payment</u>

The metrics described above shall be calculated and the payments, if any, to CARRIER shall be determined as follows:

- 5.1 For SLC-1, FOC Timeliness:
  - 5.1.1 AT&T SOUTHEAST REGION 9-STATE will divide (i) the number of CARRIER LSRs submitted for which a FOC is returned within the reporting period within 3 hours by (ii) the total number of CARRIER LSRs submitted for which a FOC is returned in the reporting period.
  - 5.1.2 If the resulting quotient in Section 5.1.1 above is .95 or greater, there are no missed occurrences for which payment is due under this Attachment.
  - 5.1.3 In the event that greater than five percent (5%) of the FOCs returned within the reporting period exceed the 3-hour interval, then each FOC returned in greater than 3 hours in excess of 5% shall constitute a missed occurrence.
- 5.1.4 **AT&T SOUTHEAST REGION 9-STATE** shall pay CARRIER \$10 for each such missed occurrence.
- 5.2 For SLC-2, Installation Appointments Met:
  - 5.2.1 AT&T SOUTHEAST REGION 9-STATE will divide (i) the number of CARRIER installation service orders completed within the reporting period on or before the committed due date by (ii) the total number of CARRIER installation service orders completed within the reporting period.
  - 5.2.2 If the resulting quotient in Section 5.2.1 above is .98 or greater, there are no missed occurrences for which payment is due under this Attachment.
  - 5.2.3 In the event that greater than two percent (2%) of the completed installation service orders within the reporting period are not completed on or before the committed due date due to <a href="AT&T SOUTHEAST REGION 9-STATE">AT&T SOUTHEAST REGION 9-STATE</a> reasons, then each installation service order not completed on or before the committed due date due to <a href="AT&T SOUTHEAST REGION 9-STATE">AT&T SOUTHEAST REGION 9-STATE</a> reasons in excess of two percent (2%) shall constitute a missed occurrence.
  - 5.2.4 **AT&T SOUTHEAST REGION 9-STATE** shall pay CARRIER \$25 for each such missed occurrence.
- 5.3 For SLC-3, Repair Appointments Met:
  - AT&T SOUTHEAST REGION 9-STATE will divide (i) the number of closed CARRIER trouble reports within the reporting period that were resolved as repaired by the committed date and time by (ii) the total number of closed CARRIER trouble reports within the reporting period that were resolved as repaired.
  - 5.3.2 If the resulting quotient in Section 5.3.1 above is .94 or greater, there are no missed occurrences for which payment is due under this Attachment.
  - 5.3.3 In the event that greater than six percent (6%) of the closed trouble reports within the reporting period were not resolved as repaired by the committed date and time, then each closed trouble report that was not resolved as repaired by the committed date and time in excess of six percent (6%) shall constitute a missed occurrence.
  - 5.3.4 AT&T SOUTHEAST REGION 9-STATE shall pay CARRIER \$25 for each such missed occurrence.
- 5.4 For SLC-4, Maintenance Average Duration:
  - 5.4.1 AT&T SOUTHEAST REGION 9-STATE will add the maintenance duration (as defined in Section 4) of each trouble report received from AT&T SOUTHEAST REGION 9-STATE Retail Residence and Business Plain Old Telephone Service (POTS) End Users, and divide that number by the total number of AT&T SOUTHEAST REGION 9-STATE Retail Residence and Business POTS End User trouble reports closed

Page 6 of 6

- during the reporting period to determine the Maintenance Average Duration for AT&T SOUTHEAST **REGION 9-STATE** retail.
- 5.4.2 AT&T SOUTHEAST REGION 9-STATE will add the maintenance duration (as defined in Section 4) of each trouble report received from CARRIER, and divide that number by the total number of CARRIER trouble reports closed during the reporting period to determine the Maintenance Average Duration for CARRIER.
- 5.4.3 If the Maintenance Average Duration for AT&T SOUTHEAST REGION 9-STATE retail is equal to or greater than the Maintenance Average Duration for CARRIER, there are no occurrences for which payment is due under this Attachment.
- 5.4.4 If the Maintenance Average Duration for AT&T SOUTHEAST REGION 9-STATE retail is less than the Maintenance Average Duration for CARRIER, AT&T SOUTHEAST REGION 9-STATE shall remove from the metric calculation the number of trouble reports received from CARRIER (starting with the longest duration trouble report and proceeding to the next longest duration trouble report) that, when added together and removed from the metric calculation, results in a revised Maintenance Average Duration for CARRIER that is equal to or less than the Maintenance Average Duration for **AT&T SOUTHEAST REGION 9-STATE**.
- 5.4.5 Each CARRIER trouble report removed from the metric calculation shall constitute an occurrence.
- 5.4.6 AT&T SOUTHEAST REGION 9-STATE shall pay CARRIER \$25 for each such occurrence.
- 5.5 Performance payments shall not be paid in the event of a Force Majeure condition, as described in the General Terms and Conditions of this Agreement.
