RFP-123-2100000244**

This document constitutes a Request for Proposals for a Personal Service Contract from qualified individuals and organizations to furnish those services as described herein for the Commonwealth of Kentucky, Energy and Environment Cabinet/Public Service Commission.

	Document Description	Page 5
2100000244	Environmental Compliance Plan Consultant	

Offerors are advised that any personal service contract resulting from this RFP must comply with all applicable provisions of KRS 45A and KRS 12.210 prior to becoming effective.

A contract, based on this RFP, may or may not be awarded. Any contract award from this RFP is invalid until properly approved and executed by the Finance and Administration Cabinet and filed with the Legislative Research Commission, Government Contract Review Committee.

1.00 Purpose and Background

Pursuant to KRS 278.183(4), the Kentucky Public Service Commission ("Commission") seeks consulting services from a vendor with expertise in regulated electric utility ratemaking and rate design for the purpose of assisting the Commission with environmental compliance plan review for retail electric utilities.

The primary objective of this focused review is to assist Commission Staff in reviewing and analyzing all documentation and materials supporting the applications from a utility in order to ascertain whether a utility's proposed actions and the associated costs are reasonable. The ultimate purpose of this review is to aid the Commission in ensuring that a utility's ultimate proposed plan represents the optimal choice in terms of environmental compliance, cost and reliability consistent with industry best practices for ratepayers.

In order to meet these criteria, it is imperative that the selected consultant possess an in-depth understanding of the electric generation utility industry and the environmental compliance issues confronting it, as well as specific experience with the various engineering and financial models used by electric generation utilities and environmental compliance implementation specifically. The proposal should reflect the consultant's understanding of these issues and provide discussion of how they would likely affect the utility. It is the intent of the agency to award from this RFP up to five (5) contracts per this solicitation.

2.00 Scope of Work

The scope of this focused review should include a review of all documentation and supporting materials related to the utility's proposed environmental compliance plan including:

1. Provide ongoing analytical support to Commission staff;
2. Assist Staff in the preparation, review, and analysis of discovery requests and responses with respect to the cost of service studies, rate proposals, and initial tariff filings and potential alternatives and other submissions filed by parties and commenters in the proceeding;
3. Participate in Commission hearings during environmental compliance plan rate case proceedings;
4. Assist Staff in developing an evaluation of Utility's proposed actions;
5. Assist Staff in developing an evaluation of compliance alternatives evaluated by Utility, but not selected. In addition, the evaluation should include a determination of whether there were reasonable compliance alternatives that should have been included in Utility's analysis, but were not;
6. Assist Staff in developing a determination of whether other reasonable viable actions (in terms of economic cost, ratepayer impact, and reliability) should have been considered by Utility, especially if the Company's chosen option is to retire the facility; and
7. Assist Staff in developing a determination of whether Utility's selected actions collectively represent a reasonable long-term plan in terms of environmental compliance, cost and reliability.

It will be necessary for the consultant to conduct an independent assessment of Utility's actions. The Consultant will be assisting Commission Staff in its evaluation and assessment of Utility's proposed actions. As such, the consultant will be expected to assist Staff in developing appropriate recommendations for consideration by the Commission.

Please note that time is of the essence and environmental compliance proceedings will be ongoing when the consultant begins work. The environmental compliance plan proceedings have a six month statutory timeline.

Such action shall include, but not be limited to the following: employment, upgrading, demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensations; and selection for training, including apprenticeship.
