

Kentucky Revised Statute 74.020(7)(b) and (c) place responsibility for the regulation and promotion of water district management training programs with the Kentucky Public Service Commission. Since 2010, the KPSC has developed and provided a course of instruction for newly-appointed water district commissioners to comply with KRS 74.020(8).

KPSC Water Training Seminars consist of three parts:

- 1) Information Pertinent to All Water Utility Commissioners and Staff
- 2) Presentations Designed to help New Commissioners understand and perform their duties as state regulations require. This section focuses on basic utility operations and management.
- 3) The final section is directed towards returning commissioners and water staff. It contains up-to-date information on ever changing laws, regulations and hot topics of interest.

Dept. of Environmental Protection grants Continuing Learning Education Credits thru these programs. New Commissioners, Operators, and Engineers can earn up to 12 hours, returning commissioners may qualify for up to 6 hours. Kentucky Bar Association also recognizes these seminars for up to 12 hours of CLE. Please make sure to mark the desired CLE when registering.

Every year we work hard to make these seminars informative and pertinent to evolving issues in the areas of water utility and waste management. If you have any questions or suggestions, please let us know!

“Water does not resist. Water flows. When you plunge your hand into it, all you feel is a caress. Water is not a solid wall, it will not stop you. But water always goes where it wants to go, and nothing in the end can stand against it. Water is patient. Dripping water wears away a stone. Remember that, my child.”

– [Margaret Atwood](#)

“It is life, I think, to watch the water. A man can learn so many things.”

– [Nicholas Sparks](#)

“High and fine literature is wine, and mine is only water; but everybody likes water.”

– [Mark Twain](#)

“You can't trust water: Even a straight stick turns crooked in it.”

– [W.C. Fields](#)

“Water is the driving force in nature.”

– [Leonardo da Vinci](#)

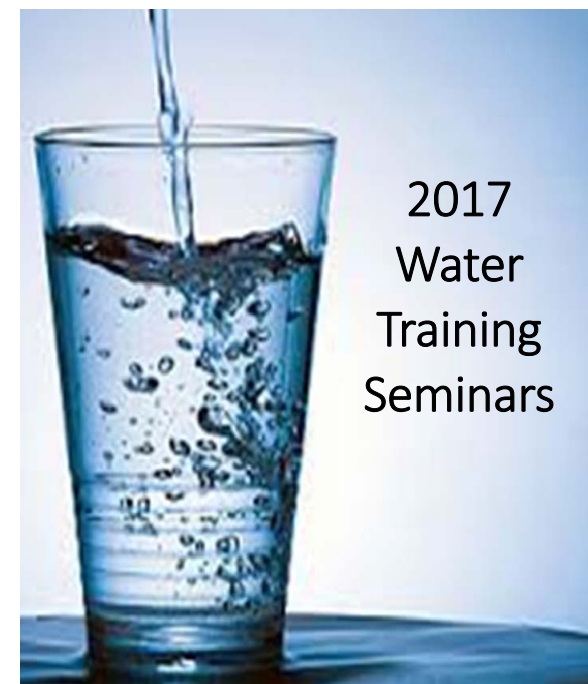

“It is difficult to find anything more healthy to drink than good cold water, such as flows down to us from springs and snows of our mountains. This is the beverage we should drink. It should be our drink at all times.”

– [Brigham Young](#)
