

Kentucky Revised Statute 74.020 sets training requirements for water district commissioners and gives the Kentucky Public Service Commission the overall responsibility for water district management training programs. KRS 74.020(8) requires newly appointed water district commissioners to undergo 12 hours of training within one year of taking office. Beginning in 2018, the only approved training for new commissioners has been the seminars offered by the Kentucky Public Service Commission. The training offered by the Kentucky Public Service Commission also may be used to fulfill the six hours of continuing education required for water district commissioners who desire additional annual compensation.
