PSC STAFF OPINION 2018-005

Hon. James Hadden Dean
Sheehan, Barnett, Dean, Pennington, Little & Dexter P.S.C.
114 South Fourth Street
Danville, KY 40422

RE: Inter County Energy Cooperative Corporation's 2018-2021 Construction Work Plan

Dear Mr. Dean:

Commission Staff acknowledges receipt of your letter received on January 18, 2018, on behalf of Inter County Energy Cooperative Corporation ("Inter County"), in which you request an opinion as to whether any or all projects contained in Inter County's 2018-2021 Construction Work Plan ("CWP") require a Certificate of Public Convenience and Necessity ("CPCN") or whether the individual projects fall within the "ordinary course of business" exemption and, therefore, do not require a CPCN.

Pursuant to the Commission's decision that each construction project contained in a CWP should be analyzed on an individual basis to determine whether that individual project is exempt from the requirement in KRS 278.020(1) to obtain a CPCN, Commission Staff has reviewed the projects contained in Inter County's 2018-2021 CWP. This letter represents Commission Staff's opinion, which is advisory in nature, and not binding on the Commission should the issues herein be formally presented for Commission resolution.

As with all legal opinions requesting a determination of the exemption from the requirement of a CPCN, Commission Staff's review does not consider the reasonableness or the need for each project. Therefore, because reasonableness and need are not considered herein, or in other non-rate cases, the cost of such a project can be denied recovery in a rate case if found to be unreasonable or unnecessary.

According to its 2018-2021 CWP, Inter County proposes individual construction projects grouped according to the following RUS Codes: (1) Code 100 construction for new services at an estimated total cost of \$7,843,385; (2) Code 300 for line conversion and replacement at an estimated total cost of \$2,894,264; (3) Code 600 for miscellaneous distribution equipment (i.e., transformers, meters, sectionalizing, conductors, and pole replacements) at an estimated total cost of \$13,475,052; and (4) Code 700 for outdoor security lights at an estimated total cost of \$1,258,550.

KRS 278.020(1) provides, in relevant part, as follows:

No person, partnership, public or private corporation, or combination thereof shall commence providing utility service to or for the public or begin the construction of any plant, equipment, property, or facility for furnishing to the public any of the services enumerated in KRS 278.010, except retail electric suppliers for service connections to electric consuming facilities located within its certified territory and ordinary extensions of existing systems in the usual course of business, until that person has obtained from the Public Service Commission a certificate that public convenience and necessity require the service or construction.

Regarding the exception to the CPCN requirement, Administrative Regulation 807 KAR 5:001, Section 15(3) provides, in full, as follows:

Extensions in the ordinary course of business. A certificate of public convenience and necessity shall not be required for extensions that do not create wasteful duplication of plant, equipment, property, or facilities, or conflict with the existing certificates or service of other utilities operating in the same area and under the jurisdiction of the commission that are in the general or contiguous area in which the utility renders service, and that do not involve sufficient capital outlay to materially affect the existing financial condition of the utility involved, or will not result in increased charges to its customers.

In analyzing whether each individual project contained in Inter County's 2018-2021 CWP would materially affect the company's financial condition, Commission Staff takes notice of Inter County's 2016 Annual Report, which shows that Inter County has a net utility plant of approximately \$89,013,096 as of December 31, 2016. When reviewed individually, each proposed construction project based on its estimated cost would not materially impact Inter County's existing financial condition. Therefore, each construction
Hon. James Hadden Dean

project is generally considered to be an extension in the ordinary course of business. Likewise, the cost estimate of each project considered separately in the 2018-2021 CWP will not have an immediate or significant impact on Inter County's rates. Lastly, the individual construction projects would not result in wasteful duplication of facilities or conflict with the service of other utilities. Thus, Commission Staff is of the opinion that each of the proposed projects set out in Inter County's 2018-2021 CWP satisfy the "ordinary course of business" exemption from CPCN requirement.

This letter represents Commission Staff's interpretation of the law as applied to the facts presented. This opinion is advisory in nature and not binding on the Commission should the issues herein be formally presented for Commission resolution. Questions concerning this opinion should be directed to Quang D. Nguyen at (502) 782-2586.

Sincerely,

Gwen R. Pinson
Executive Director
