

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

* * * * *

In the Matter of:

APPLICATION OF KENTUCKY POWER)
COMPANY FOR APPROVAL OF CAPACITY) CASE NO. 7666
AND ENERGY EMERGENCY CONTROL PROGRAM)

O R D E R

The Commission issued its Order on January 22, 1981, to the Kentucky Power Company (Kentucky Power) in which it made certain revisions to its Order of September 17, 1980, which pertained to a proposed capacity and energy emergency control program. Kentucky Power filed its revised capacity and energy emergency control program on February 24, 1981, with the Commission.

The Public Service Commission, successor to the Energy Regulatory Commission, having considered the evidence of record and being advised, is of the opinion and finds that:

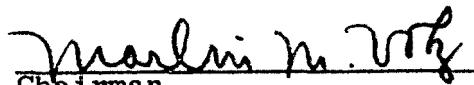

1. It is both prudent and desirable for a utility to have contingency plans available prior to the onset of an emergency.
2. The revised capacity and energy emergency control program which was filed on February 24, 1981, by Kentucky Power complies with the Commission's Order of January 22, 1981, and therefore should be approved.
3. The emergency procedures proposed by Kentucky Power give due consideration to the public health, safety and welfare without undue prejudice to any customer.

IT IS THEREFORE ORDERED that the capacity and energy emergency control program which was filed with the Commission on February 24, 1981, by Kentucky Power be approved as submitted.

IT IS FURTHER ORDERED that within twenty (20) days of the receipt of this Order Kentucky Power shall file a new tariff with the Commission which incorporates the emergency control procedures approved by this Order or shall file a new tariff sheet which makes reference to these procedures.

Done at Frankfort, Kentucky, this 8th day of April, 1981.
