In the Matter of:

APPLICATION OF SOUTH CUMBERLAND )  
WATER DISTRICT FOR RATE INCREASE ) CASE NO. 8672  
PURSUANT TO ALTERNATE RATE )  
ADJUSTMENT PROCEDURE FOR SMALL )  
UTILITIES )

O R D E R

IT IS ORDERED that South Cumberland Water District shall file an original and six copies of the following information with the Commission by April 1, 1983. If neither the requested information nor a motion for an extension of time is filed by the stated date, the case may be dismissed.

The billing analysis previously submitted is inaccurate and not useful. When the current rates are used with this billing analysis, the revenue produced is equal to \$58,726 while the test year income statement lists the revenue from water sales as \$65,370. Therefore it will be necessary for the applicant to provide:

1. A usage table for each meter size that accurately reflects actual usage and when totaled, will approximately equal the amount of water sold as listed in the test year annual report (16,352,560 gallons).
2. A revenue table for each meter size using the test year rates that accurately reflects actual sales of water and when totaled, will approximately equal the amount of revenue from the sale of water as listed in the test year annual report (\$65,370).

Done at Frankfort, Kentucky, this 18th day of March, 1933.
