

COMMONWEALTH OF KENTUCKY

BEFORE THE PUBLIC SERVICE COMMISSION

* * * * *

In the Matter of:

THE PROPOSED TARIFF REVISION) CASE NO.
OF COLUMBIA GAS OF KENTUCKY INC.) 8964

O R D E R

IT IS ORDERED that Columbia Gas of Kentucky, Inc., ("Columbia") shall file an original and seven copies of the following information with the Commission within 2 weeks from the date of this Order. If the information requested or a motion for an extension of time is not filed by the stated date, the Commission may dismiss the case without prejudice.

1. A statement as to why this addition has been proposed?
2. Why was an annual adjustment proposed? Was consideration given to the Order issued July 5, 1983, in Case No. 8738, which specifically stated that the Commission prefers a "shorter filing time period"?
3. Does the current purchased gas adjustment clause allow over or under recovery of gas cost? Provide calculations to show how much during the period this clause has been in effect.

4. Based on actual historical data, what would this adjustment, as proposed, have been in each of the past 5 years?
5. How will the initial adjustment be calculated? Will all past years of PGA operations be included? What will be the immediate impact? Provide calculations using actual historical figures.
6. Refer to A(1); How will the "current per Mcf cost of gas purchased embedded in tariff rates" be determined? Provide sample based on actual historical data.
7. Refer to A(1) "cost of gas purchased during determination period"; How will this amount be determined? Per books as adjusted? Same as monthly reports filed with the Commission? What is included? Storage? Prepaid gas? Provide sample calculations based on actual historical data.
8. Will the reconciliation of previous years' actual cost adjustment be set out as a separate item. Why or why not?
9. Why has Columbia proposed to add interest to any under-recovery? Is Columbia aware that the Commission has not allowed this in any other PGA's.

10. Refer to (B) "quantities of gas to be sold"; How will this amount be determined. Provide sample calculations based on actual historical data.

11. Why has this adjustment been proposed to be effective on a "bills rendered" basis? Will this cause confusion with other adjustments made on a "service rendered" basis?

Done at Frankfort, Kentucky, this 6th day of February, 1984.

PUBLIC SERVICE COMMISSION

For the Commission
