The Commission, having considered the Motions and being advised, finds that to allow full intervention status for each and every user who requests it will be unduly costly to the utility and will not substantially add to the evidence of record. The Attorney General's Office is set up to handle such representation and has agreed to do so in this case. Also, another group of residents filed a petition to intervene and, being represented by counsel, will be allowed full intervention status. The Commission encourages these residents to either join the original petition or use the Attorney General's Office.

IT IS THEREFORE ORDERED that the Motions for full intervention be and they hereby are denied, but that limited intervention status will be allowed.

IT IS FURTHER ORDERED that the Secretary of the Commission shall notify these petitioners as to the procedures to contact both the Attorney General and other parties who may be of specific help to these consumers.

Done at Frankfort, Kentucky, this 26th day of September, 1984.
