O R D E R

On November 21, 1984, Barkley Lake Water District ("Barkley Lake") filed its Application and Motion to reopen Case No. 8937, wherein it had sought Commission approval for certain construction of new plant facilities, issuance of certain securities, and proposed rates.

The Commission entered an Order on September 18, 1984, to dismiss that case without prejudice because Barkley Lake had not submitted, and could not submit, sufficient documentation to support its case within the statutory 10-month time frame allowed the Commission to decide rate cases. The Commission did allow Barkley Lake to refile when it had completed its advertising and project bid tabulations. Evidence in the record indicated this was the only outstanding documentation necessary in order to submit the case to the Commission for final determination.

The Commission FINDS that Barkley Lake has now completed its advertising and bid tabulations and that its Motion should be allowed except that instead of reopening Case No. 8937, a new case should be established and the entire record of Case 8937 should be incorporated therein by reference.

IT IS THEREFORE ORDERED that Barkley Lake's Application filed on November 21, 1984, be and it hereby is accepted for filing and that this case should be established to consider the merits of the proposal.

IT IS FURTHER ORDERED that the entire record in Case No. 8937 be and it hereby is incorporated herein by reference.

Done at Frankfort, Kentucky, this 18th day of December, 1984.
