

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

APPLICATION OF GREEN RIVER)
ELECTRIC CORPORATION)
FOR AN INCREASE IN) CASE NO. 9618
RATES TO FLOW THROUGH)
WHOLESALE POWER COST INCREASE)

O R D E R

On August 11, 1986, Green River Electric Corporation ("Green River") filed an application to flow through any increase in rates granted its wholesale power supplier, Big Rivers Electric Corporation ("Big Rivers"), in Case No. 9613. Green River did not request the approval of any additional revenues or margins in its flow through application.

Green River is one of four member distribution cooperatives of Big Rivers. Based on the rates proposed by Big Rivers in Case No. 9613, Green River requested an increase of \$1,419,845. The proposed increase would result in an overall increase of approximately 1.2 percent to Green River consumers.

The matter was scheduled for hearing on January 12, 1987, at the Commission's offices in Frankfort, Kentucky. The hearing was conducted as scheduled and the Utility and Rate Intervention Division of the Attorney General's Office and National-Southwire Aluminum Company participated as intervenors.

The Commission, after review of the evidence of record and being advised, is of the opinion and finds that:

1. The proposed increase by Big Rivers in Case No. 9613 was denied, which will result in no increase in purchased power costs to Green River.

2. The issue of whether Green River should be allowed to flow through any increase in its wholesale purchased power cost allowed in Case No. 9613 is moot.

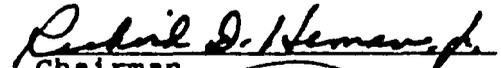

IT IS THEREFORE ORDERED that:

(1) The application by Green River to flow through any increase in wholesale purchased power costs be and it hereby is denied.

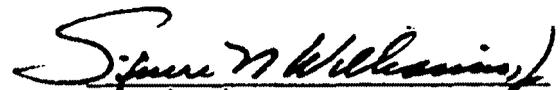

(2) The rates currently being charged by Green River shall remain in effect.

Done at Frankfort, Kentucky, this 17th day of March, 1987.
