O R D E R

By letter received October 27, 1987, Ghosen Utilities, Inc. ("Goshen") requested a deviation from Subsection Subsection (3) of 807 KAR 5:066, Section 10. This request proposed that Goshen be relieved of the requirements for inspection of customers' service lines as prescribed by Subsection (3). The letter said that such inspections would be a duplication of the inspections performed by State Plumbing Inspectors.

Additional information is needed for an adequate and proper consideration of the deviation requested by Goshen.

IT IS THEREFORE ORDERED that Goshen shall file an original and seven copies of the following information with the Commission with a copy to all parties of record no later than January 6, 1988.

2. Describe present method or procedures for inspection of customers service lines. Include "farmstead" service lines per KRS 318.010 (8).

3. If a local government, acting under its ordinance that enacted the Kentucky State Plumbing Code per KRS 318.140, is inspecting service lines for Goshen, provide the name of this local government.

If the above listed items of information cannot be provided by January 6, 1988, Goshen should submit a motion for an extension of time stating the reason a delay is necessary and include a date by which it will be furnished. Such motion will be considered by the Commission. Goshen shall furnish with each response the name of the witness who will be available for responding to questions concerning each item of information requested should a public hearing be required in this matter.
