

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

INQUIRY INTO THE COMMUNITY OF INTEREST)	
AND AFFECT THEREOF BETWEEN THE AREAS OF)	CASE NO.
GEORGETOWN, KENTUCKY AND LEXINGTON,)	91-149
KENTUCKY)	

O R D E R

By Order dated July 3, 1991, the Commission issued an Order containing a "gross-up factor" produced by Staff using information on file with the Commission. The gross-up factor represented the amount by which traffic data of AT&T Communications of the South Central States, Inc. ("AT&T") minutes of use could be grossed up to produce estimated percentages of minutes of use for all carriers between Georgetown and Lexington.

The Commission has become aware that the calculation of the gross-up factor contained an error. Thus, proposed rate changes necessary to provide Extended Area Serviced ("EAS") between Georgetown and Lexington should be calculated using a different factor than was supplied to GTE South Incorporated ("GTE South") and South Central Bell Telephone Company ("South Central Bell").

The Commission, having been sufficiently advised, HEREBY ORDERS that:

1. The gross-up factor contained as confidential Attachment A to the July 3, 1991 Order shall be corrected and is hereby attached hereto as Amended Exhibit A.

2. An edited copy of Amended Exhibit A shall be placed in the public record and served to all parties.

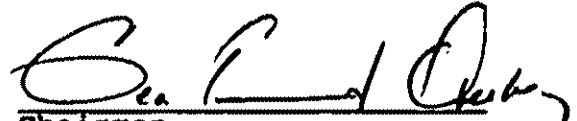

3. An unedited copy of Amended Exhibit A shall be served on GTE South and South Central Bell based on the protective agreements between GTE South and AT&T, and South Central Bell and AT&T, already a part of the record of this proceeding.

4. GTE South and South Central Bell shall file amended rate information no later than October 4, 1991.

5. All parties shall have 20 days thereafter to file comments on the rate information and on their positions on all options proposed, including two-way, non-optional EAS.

Done at Frankfort, Kentucky, this 24th day of September, 1991.

APPENDIX A
(EDITED)

APPENDIX TO AN ORDER OF THE KENTUCKY PUBLIC SERVICE
COMMISSION IN CASE NO. 91-149 DATED 9/24/91

Pursuant to the request at the June 20, 1991 informal conference, Staff calculated the gross up factor to be applied by GTE South Incorporated and South Central Bell Telephone Company to AT&T traffic data between Georgetown, Kentucky and Lexington, Kentucky, filed in this proceeding. It is _____.
