

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

AT&T COMMUNICATIONS OF THE SOUTH CENTRAL)
STATES, INC.'S PROPOSED SEPARATE RATE) CASE NO. 91-193
SCHEDULES FOR THE AT&T CIID/891 CARD)
TARIFF)

O R D E R

This matter having arisen upon the AT&T Communications of the South Central States' ("AT&T") May 20, 1991 filing of a revision to its General Services Tariff implementing separate rate and service charge schedules for calls which are to be billed to the AT&T CIID/891 card.

On June 17, 1991, AmeriCall Systems of Louisville ("AmeriCall") filed a motion to suspend AT&T's tariff revision on grounds that it is discriminatory and fails to set forth discounts associated with CIID card usage. On June 20, 1991, the Commission suspended the tariff for five months and ordered AT&T to respond to AmeriCall's objections. On June 28, 1991, AT&T filed a response stating that AT&T's CIID card will be available to all of its customers and that there are no discounts contained in this tariff revision. AmeriCall requested a procedural schedule and hearing which was ordered by the Commission.

AT&T and AmeriCall prefiled testimony; however, AmeriCall filed a notice withdrawing its prefiled testimony prior to the hearing.

The October 29, 1991 hearing was limited to the issue of the reasonableness of the tariff filing pursuant to the October 22, 1991 Order of the Commission. Testimony offered on behalf of AT&T indicated that there are no rate changes associated with the tariff revision and that separate rate schedules are needed for the implementation of the AT&T CIID/891 card which will replace the current AT&T card.

IT IS THEREFORE ORDERED that AT&T's tariff revision is reasonable and is approved.

Done at Frankfort, Kentucky, this 25th day of November, 1991.
