

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

THE APPLICATION OF SHELBY RURAL ELECTRIC)
COOPERATIVE CORPORATION FOR A CERTIFICATE) CASE NO. 93-387
OF PUBLIC CONVENIENCE AND NECESSITY TO)
MAKE CERTAIN EXTENSIONS AND IMPROVEMENTS)
TO ITS SYSTEM)

O R D E R

Shelby Rural Electric Cooperative Corporation ("Shelby RECC") filed its application on October 19, 1993 for a Certificate of Public Convenience and Necessity to construct certain improvements and additions to its existing plant at a cost of \$2,580,626. In support of its application, Shelby RECC filed its 1993-1995 Work Plan which describes in detail the improvements and additions to its plant that are required over the next 2 years to serve its load.

Shelby RECC seeks authorization to construct extensions and additions to its plant as follows:

1. Consumer line construction	\$1,190,000
2. Distribution equipment	1,330,786
3. Security lights	<u>59,840</u>
Total	\$2,580,626

The proposed construction will enable Shelby RECC to continue to provide adequate and dependable electric service to its consumers. The system improvements recommended in this Work Plan will not duplicate existing facilities and are needed to correct

voltage problems, improve phase balance, and provide for improved service reliability.

Based on the application and supporting 1993-1995 Work Plan, and being advised, the Commission finds that the proposed improvements and additions to be constructed by Shelby RECC are necessary to provide adequate, reliable electric service to existing customers and anticipated new customers.

IT IS THEREFORE ORDERED that Shelby RECC be and it hereby is granted a Certificate of Public Convenience and Necessity to construct the facilities described in its 1993-1995 Work Plan.

Done at Frankfort, Kentucky, this 7th day of January, 1994.
