O R D E R

Logan Telephone Cooperative, Inc. ("Logan") and South Central Bell Telephone Company ("South Central Bell") filed a document on April 4, 1994, ("joint proposal") proposing to exchange certain service areas to allow the affected customers toll free calling to their county seat and access to their county's emergency 911 services. The Commission's July 20, 1994 Order required the joint proposal to be implemented if no customer objected within 60 days of the date of the Order. Numerous letters objecting to the proposed exchange have been filed with the Commission with the majority of the letters from residents in the "Little Bend" area of Butler County.

The Commission being sufficiently advised, IT IS HEREBY ORDERED that:

1. The joint proposal shall not be implemented until further ordered by the Commission.

2. Logan and South Central Bell shall file the original and ten copies of the following information with the Commission. The information shall be placed in a bound volume with each item tabbed. The information requested herein is due no later than 20 days from the date of this Order.

a. Logan and South Central Bell shall advise the Commission whether the joint proposal could be amended to exclude the residents of the "Little Bend" area of Butler County. If an amended joint proposal is feasible, provide the following information for any customer affected by the amended joint proposal:

1. A list of customers currently served by each utility.

2. The types of services to which each customer subscribes including optional services.

3. The rate paid for each service item under the current tariff as compared to the tariffed rate of the company which would serve the customer if the amended joint proposal is adopted by the Commission.

4. Any change in service options which would be experienced by the customer as a result of the proposed service territory exchange.

b. Logan and South Central Bell shall provide a description of the construction required and an estimate of the costs to be incurred by each utility to implement the amended joint proposal.

Done at Frankfort, Kentucky, this 21st day of September, 1994.
