ORDER TO SATISFY OR ANSWER

The Commission has received a letter from Willamette Industries, Inc. ("Willamette") alleging Western Kentucky Gas Company ("Western"), a division of Atmos Energy, Inc., diverted gas transported under firm tariffs on behalf of Willamette and delivered to Western at its interconnect with Texas Gas Transmission. Willamette alleges Western curtailed the flow of Willamette's transportation gas throughout the curtailment period and used Willamette's gas for system supply during January of 1994.

After a review of the letter, the Commission finds it sets forth sufficient information to establish a prima facie case. Western is hereby notified that it has been named a defendant in the complaint attached hereto as an Appendix.

IT IS THEREFORE ORDERED that Western shall either satisfy the matters complained of or answer the complaint within 10 days of the date of this Order. Should documents of any kind be filed with the Commission in the course of this proceeding, the documents shall also be served on all parties of record.

Done at Frankfort, Kentucky, this 13th day of April, 1994.
