

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

THE APPLICATION OF COOL WATERWORKS, INC.)
FOR A DEVIATION FROM 807 KAR 5:066,) CASE NO. 94-296
SECTION 4(4), REGARDING WATER STORAGE)

O R D E R

IT IS ORDERED that Cool Waterworks, Inc. ("Cool Waterworks") shall file an original and 10 copies (two copies of engineering-related materials) of the following information with the Commission, with a copy to all parties of record within 21 days from the date of this Order. Cool Waterworks shall furnish with each response the name of the witness who will be available at the public hearing, if one is held, for responding to questions concerning each item of information requested.

1. Provide the current average daily usage on the system. This should include all water sold, utility water usage and unaccounted-for-water.

2. Provide the number, type, and capacity of any water storage tanks on the system.

3. Provide a list of all customers served who purchase 5 percent or more of the systems daily average usage, the usage of each, whether these customers have storage facilities and their capacity, and which, if any, can be interrupted during emergencies.

4. Provide a list of critical health care facilities served by the system. Also state whether these customers have storage facilities and the capacity.

5. State whether the system produces or purchases its water. If part or all of the system's water is purchased, provide the supplier's name and gallons purchased.

6. If a supplier of the system has storage capacity or reserves storage capacity for benefit of the system, state the capacity, the proximity to the master meter, and provide a copy of the purchase agreement. The purchase agreement should specifically mention the terms of interruptability.

7. Provide a technical summary of operational deficiencies of the system that are known from experience or that are indicated by hydraulic analysis. Include a list of outages that occurred in past years, the cause and duration of any outages, customer complaints, areas of low pressure, and the availability of standby equipment, repair equipment, and contractors.

8. Provide information on the growth potential for the system. Include the number of new customers added per year, and the possibility of extensive development (e.g., new subdivisions, businesses, etc.).

9. Describe any planning to date, to bring the system into compliance with Commission regulations. Include efforts to secure financing for the construction of additional storage facilities as well as the estimated compliance date. If no planning has taken place, explain why not.

Done at Frankfort, Kentucky, this

23rd day of August, 1994.
