Dear: Mr. DENNIS + MRS Dendman

Due to my work schedule my mom, Daisy Coleman has called Ashland Exploration Inc. on several occasions about a gas hook up for my home.

My dad has a contract signed by the Gas Company in 1953 allowing him a rate of .35¢ per thousand cubic feet on this tract of land. Since then, there has been six homes built on this property and all are on the 35¢ rate. My home was the last one built and Ashland Exploration Inc. is refusing to hook me up, although their line runs across my front lawn.

Mom called Mr. J. F. Keiver, who works for Ashland Exploration, Inc. on September 24th, 1992, and ask him about a gas hook up for my home. He talked as if they would hook me up and ask mom to measure the distance from my house to their main gas line and send it to him with a copy of my deed. The distance measured was 103 ft. At that time he said something should be done within a month.

Mr. Keiver was called several times after that and always made us think we would soon get the O.K. for our gas hook-up.

On May 17, 1993, Keiver was called again about my hook up and he said they were not going to hook me up and I could not force them to. He said they were only selling to Interstate Commerce only.

Just last year Ashland Exploration gave six hook-ups to neighbors as a favor to them. I feel this is very discriminating to me and other local people who would like to use natural gas in their homes.

House Bill 627 was passed in 1992 and made a law giving land owners the right to hook up on natural gas if the gas line is within 1/2 mile air space of your home and I feel this law should be enforced.

I feel our elected officials should get something done about this. Ashland Exploration, Inc. is using our land to pipe their gas over and we the land owners are getting nothing. We the land owners are paying tax on this land, not Ashland Exploration, Inc.

I think it is time these big companies are stood up to and don't let them control our officials like they try to do the land owners.

Thank you,

Vivian (Holbrook) Reed
