

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

NOTICE OF ADJUSTMENT OF THE RATES OF SALT)
RIVER ELECTRIC COOPERATIVE CORPORATION) CASE NO. 94-384

O R D E R

On November 8, 1994, Salt River Electric Cooperative Corporation ("Salt River") filed a petition requesting a deviation from 807 KAR 5:011, Section 8(2)(b), to permit the notice of its proposed rate reduction to be included in a trade publication sent to all customers approximately four days after the filing of its rate application, rather than by the date of the filing as required by the regulation. Salt River also requests authority to abbreviate the form of notice to be included in its trade publication and tendered a copy of the proposed abbreviated notice.

Based on the petition and being advised, the Commission finds that the brief delay occasioned by utilizing a trade publication to notify Salt River's customers of the proposed rates will not result in any prejudice and should be approved. However, a review of the proposed abbreviated notice discloses that no specific information is revealed regarding any rate classification, and no evidence has been presented to show that publishing all of the rate information required by regulation would be voluminous or unduly expensive.

IT IS THEREFORE ORDERED that Salt River be and it hereby is authorized to give notice of its rate application by using a trade

publication but such notice shall include all the information required by 807 KAR 5:001, Section 10(3).

Done at Frankfort, Kentucky, this 10th day of November, 1994.
