O R D E R

IT IS ORDERED that Boone County Water & Sewer District ("Boone") shall file the original and 6 copies of the following information with the Commission with a copy to all parties of record within 15 days from the date of this Order. Each response shall include the name of the witness who will be available to respond to questions should a public hearing be scheduled.

2. Provide the rationale for allowing reimbursement for lateral connections but not for terminus connections to transmission lines.

3. Provide the rationale for proposing the transmission line extension policy. Also, explain why the Commission's water line extension policy would not be sufficient for this type of installation.
