CASE NO. 95-087

ORDER

IT IS ORDERED that Kentucky Utilities Company ("KU") shall file the original and 5 copies of the following information with the Commission with a copy to all parties of record no later than 14 days after the date of this Order. KU shall furnish with each response the name of the witness who will be available to respond to questions concerning each item of information requested should a public hearing be scheduled.

1. East Kentucky Power Cooperative, Inc. ("East Kentucky") is proposing to construct additional facilities to serve customers in the Marion County Industrial Park. One of the alternatives considered by East Kentucky is the construction of a new 69/25 KV, 11.2 MVA substation at the existing Lebanon substation to be served from KU's transmission system. Can KU provide transmission service to the proposed substation?

a. If no, explain why not.

b. If yes, what costs will KU incur to serve this load and what will the wheeling rate be? Provide all workpapers supporting the calculations.

Done at Frankfort, Kentucky, this 10th day of August, 1995.
