Re: Proposed South Central Bell Cellular Tower
Alfred Nuckols Property
Spring Station Road
Midway, Kentucky

Dear Mr. Mills:

At its regular meeting held on July 17, 1995, the Midway City Council adopted the following resolution:

RESOLVED that the City of Midway request the Public Service Commission to review alternate sites for the cellular tower to be located between Lexington and Frankfort in addition to the site presently proposed on the Alfred Nuckols property near the Spring Station Road of Midway, Kentucky.

Thank you for your attention to this matter.

Sincerely yours,

Ambrose Wilson, III, Mayor

Dear Mr. Mills,

We are writing concerning the 280 ft. telephone tower Bellsouth Mobility has proposed to build on Hurstland Farm on Spring Station Road just outside of Midway (case # 95-215).

We are opposed to this location and feel that a tower of this height in an area that is predominately rural is inappropriate. We think there are probably more suitable locations available that should be considered.

Many of us bird watch, walk, drive, jog, and ride bicycles out Spring Station Road and are not aware of any notification of this project. However, it is apparent that they have already done extensive work on the access road to this site. It is our understanding that this project has not been approved by your office or by the Bluegrass airport and we are concerned that Bellsouth Mobility would start a project of this size without waiting for the appropriate approval.

We hope that your office will look into this matter and consider more appropriate alternatives. Please keep us informed of any further developments.

We sincerely thank you for your consideration.
