RE: CASE NO. 96-82

We are owners of the property on the north side of the proposed tower. We now have three properties in Bullitt County with metal transmission towers. In one subdivision lots with these easements are very difficult to sell. There is a fear by the general public of all steel type towers. As this tower location will be very close to our property line it will adversely affect our property value.

Damages to the property should be settled before this permit is granted, as we will seek damages.

Yours Truly,

Raymond G. McGruder
