

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

REQUEST FOR CONFIDENTIAL TREATMENT OF)
INFORMATION FILED WITH BELLSOUTH TELE-) CASE NO. 96-099
COMMUNICATIONS, INC.'S PROPOSED CONTRACT)
WITH METROPOLITAN SEWER DISTRICT)

O R D E R

This matter arising upon petition of BellSouth Telecommunication's Inc. ("BellSouth"), filed March 19, 1996, pursuant to 807 KAR 5:001, Section 7, for confidential protection of the cost support data developed in connection with a special service arrangement contract with the Metropolitan Sewer District ("MSD") for Native Mode LAN Interconnection Service ("NMLI") on the grounds that disclosure of the information is likely to cause BellSouth competitive injury, and it appearing to this Commission as follows:

BellSouth has contracted with the MSD to provide NMLI. This is a tariffed service that is only available from central offices equipped to provide the service. In support of its application for approval of the contract, BellSouth has provided cost data which it seeks to protect as confidential.

The information sought to be protected is not known outside of BellSouth and is not disseminated within BellSouth except to those employees who have a legitimate business need to know and act upon the information. BellSouth seeks to preserve and protect the

confidentiality of the information through all appropriate means, including the maintenance of security at its offices.

KRS 61.872(1) requires information filed with the Commission to be available for public inspection unless specifically exempted by statute. Exemptions from this requirement are provided in KRS 61.878(1). That subsection of the statute exempts several categories of information. One category exempted in paragraph (c)1 of that subsection is commercial information confidentially disclosed to the Commission which if made public would permit an unfair commercial advantage to competitors of the party from whom the information was obtained. To qualify for the exemption, the party claiming confidentiality must demonstrate actual competition and a likelihood of substantial competitive injury if the information is disclosed. Competitive injury occurs when disclosure of the information gives competitors an unfair business advantage.

NMLI is an alternative to dedicated private line service. BellSouth's competitors for this service are providers of fiber networks. Disclosure of the information sought to be protected would enable such competitors to determine BellSouth's cost and contribution from the service, which they could use in marketing their competing services. Therefore, disclosure of the information is likely to cause BellSouth competitive injury, and the information should be protected as confidential.

This Commission being otherwise sufficiently advised,

IT IS ORDERED that the cost support data filed in support of the proposed contract with the MSD for NMLI, which BellSouth has petitioned to be withheld from public disclosure, shall be held and retained by this Commission as confidential and shall not be open for public inspection.

Done at Frankfort, Kentucky, this 23rd day of April, 1996.
