We at Natural Wonders are against locating the new PCS facility at this location. We have a paperless warehouse that operates off a spread spectrum RF system. In the past we have experienced problems with Ann Taylors system effecting our base station, and would not want to create any potential additional problems.

Thank You,

Re: Public Notice - Public Service Commission of Kentucky,  
Case No. 96-311

Dear Sir or Madam:

WirelessCo., L.P., doing business in Kentucky as Sprint Spectrum, has applied to the Public Service Commission (the "Commission") of Kentucky for a Certificate of Public Convenience and Necessity to construct and operate a new Public Communications Services ("PCS") facility to provide personal wireless telephone and data services. A large percentage of Sprint Spectrum's proposed new facilities will be located on existing structures (ie., rooftops and water tanks). Unfortunately, no such appropriate and available structure exists in this area. Therefore, the proposed new facility will include a monopole, with attached antennas extending upward for a total height of 150', and an equipment shelter to be located at 7331 Intermodal Drive, Louisville, Kentucky. A map showing the location of the proposed new PCS facility is enclosed. This notice is being sent to you because you own property or reside within a 500' radius of the proposed monopole.

The Commission invites your comments regarding the proposed construction. You also have the right to intervene in this matter. Your initial communication to the Commission must be received by the Commission within 20 days of the date of this letter as shown above.

Your comments and request for intervention should be addressed to: Executive Director's Office, Public Service Commission of Kentucky, Post Office Box 615, Frankfort, KY 40602. Please refer to Case No. 96-311 in your correspondence.

Yours truly,

James R. Holmes, J.D.
