

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

THE APPLICATION OF EAST PENDLETON)
WATER DISTRICT FOR AN ADJUSTMENT)
OF RATES PURSUANT TO THE) CASE NO. 97-243
ALTERNATIVE RATE FILING)
PROCEDURE FOR SMALL UTILITIES)

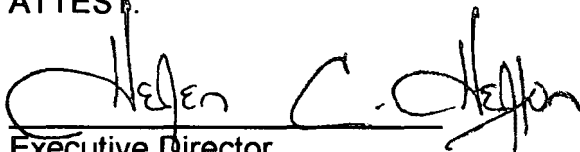

O R D E R

On May 7, 1997, East Pendleton Water District ("East Pendleton") on behalf of its Sewer Division filed its application for Commission approval of proposed sewer rates. Commission Staff, having performed a limited financial review of North Logan's operations, has prepared the attached Staff Report containing Staff's findings and recommendations regarding the proposed rates. All parties should review the report carefully and provide any written comments or requests for a hearing or informal conference no later than 10 days from the date of this Order.

IT IS THEREFORE ORDERED that all parties shall have no more than 10 days from the date of this Order, or 90 days after the date the application was filed, whichever is later, to provide written comments regarding the attached Staff Report or requests for a hearing or informal conference. If no request for a hearing or informal conference is received, this case will be submitted to the Commission for a decision.

Done at Frankfort, Kentucky, this 5th day of December, 1997.

ATTEST:

Executive Director

PUBLIC SERVICE COMMISSION

For the Commission

STAFF REPORT

ON

EAST PENDLETON WATER DISTRICT

CASE NO. 97-243

On May 7, 1997, the East Pendleton Water District ("East Pendleton") submitted an application on behalf of its Sewer Division seeking to increase its rates pursuant to 807 KAR 5:076, the Alternative Rate Adjustment Procedure for Small Utilities. In Order to evaluate the requested increase, the Commission Staff ("Staff") performed a limited financial review of East Pendleton's test-period operations for the 1996 calendar year.

Mark Frost of the Commission's Division of Financial Analysis performed the limited review on June 9, 1997 and October 14, 1997. The scope of the review was limited to obtaining information as to whether Sewer Division's test-period operating revenues and expenses were representative of normal operations. Insignificant or immaterial discrepancies were not pursued and are not addressed herein.

Mr. Frost is responsible for the preparation of this Staff Report except for Attachment A, Adjustment A, Revenue from Sewer Rates; Attachment D, Staff's Cost of Service Study, Staff's Recommended Rates, and the Sewer Rates East Pendleton Could Justify, which were prepared by Brent Kirtley of the Commission's Division of Financial Analysis.

A comparison of East Pendleton's actual and pro forma operations is shown as Attachment A. Based upon Staff's recommendations, East Pendleton's operating statement would appear as set forth in Attachment B.

East Pendleton requested additional revenues of \$5,579. Since East Pendleton's proposed sewer rates will produce a negative cash flow of \$7,223, as computed in

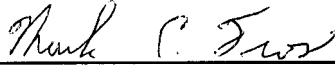

Attachment C, the proposed sewer rates should be denied. To eliminate the Sewer Division's negative cash flow, Staff recommends that East Pendleton be allowed to increase its revenues from sewer rates by \$12,802, as determined in Attachment C.

As shown in that same attachment, based on its recommended pro forma operations and the 88 percent operating ratio normally allowed by this Commission, Staff believes East Pendleton could justify additional revenues from sewer rates of \$16,536. East Pendleton may wish to amend its application to reflect the additional revenues that could be justified. Such an amendment should be filed with any comments on the Staff Report.

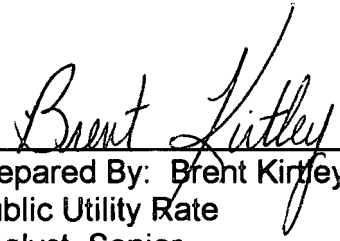

Because the sewer rates recommended by Staff differ from those rates previously noticed to customers, East Pendleton should re-notice its customers of Staff's recommended rates. Should East Pendleton choose to amend its application to reflect the sewer rates it could justify, Staff recommends that East Pendleton be required to notify its customers of the amended rate proposal.

The sewer rates contained in Attachment D will produce Staff's recommended revenue increase of \$12,802. Attachment D also contains the rates that will produce the revenue increase East Pendleton could justify of \$16,536.

Interest Income	121	0		121
Miscellaneous Nonoperating	190	0		190
Income Available for Operations	\$3,273	(\$17,526)		(\$14,253)

A. Revenue from Sewer Rates:

Staff's adjustment reflects the sewer division's end-of-period customer level and the current tariffed rate on file with the Commission.

33 (End-of-Period Customer Level) x	\$5.50 (Tariffed Monthly Rate) =	\$181.50
Multiplied by: 12-Months		12
Normalized Revenue from Sewer Rates		\$2,178
Less: Reported Revenue from Sewer Rates		2,101
Staff's Pro Forma Adjustment		<u>\$77</u>

B. Salaries & Wages - Employees:

In 1996, East Pendleton did not allocate any of its payroll cost to its Sewer Division. The maintenance employee spends approximately 1.5 hours per day at the sewage treatment plant, which is the basis Staff used to allocate the maintenance labor. The Commission currently allows small utilities to pay their owner/manager an annual fee of \$3,600. Based on this past Commission practice, Staff has allocated \$3,600 of the manager's salary to the Sewer Division.

Plant Operator	\$10 (Hourly Rate) x	390 (1.5 Daily Hours x 260 Annual Workdays) =	3,900
Admin. (Owner/Manager Fee)			3,600
Staff's Pro Forma Adjustment			<u>\$7,500</u>

C. Employee Benefits:

East Pendleton provides health insurance to each employee and contributes 8.65 percent of each employee's salary into an employee retirement system. Staff's adjustment allocates these costs to the Sewer Division based on the payroll allocation.

Total Pro Forma Health Insurance			\$18,504
Multiplied by: Sewer Allocation Factor	\$7,500 (Sewer Salaries) \	\$101,688 (Total Payroll) =	7.376%
Net Pro Forma Health Insurance			\$1,365
Add: Retirement Contribution	\$7,500 (Sewer Salaries) x	8.65% (Contribution Rate) =	649
Staff's Pro Forma Adjustment			<u>\$2,014</u>

D. KPDES Testing:

Staff's adjustment reflects the annual cost of the Sewer Division's KPDES testing expense.

Less: Reported KPDES Testing Expense	\$51.45 (Monthly KPDES Testing Fee) x	12 (Months) =	\$617
			714
			<u>(\$97)</u>

E. Insurance - Workers' Compensation:
 This proposed adjustment reflects the 1996 workers' compensation premium and the labor cost allocated to the Sewer Division.

Waterworks	Pro Forma Payroll	Rate per \$100	Pro Forma Premium
Less: All Discounts	\$7,500	\$0.92109	\$691
Subtotal	8.69% (Discount Rate) =		60
Less: Ky Premium Tax	\$631 (Subtotal) x		\$631
Pro Forma Workers' Compensation Premium	9.00% (St Tax Rate) =		57
			<u>\$688</u>

F. Miscellaneous General:
 Because East Pendleton could not provide documentation to support this expense, Staff has removed this cost from operating expenses.

Unsupported Cost (\$1,009)

G. Amortization:
 This adjustment reflects amortizing East Pendleton's rate case cost over 3-years.

	Amount	Lives	Amortization Expense
\$6,300 (Eng. Fee Both Applications) x	\$1,890	3	\$630
<u>Taxes Other Than Income Tax:</u>			

H. Staff's adjustment includes the change in FICA expense resulting from the pro forma payroll adjustment.

\$7,500 (Sewer Salaries) x 7.65% (FICA Rate) = \$574

I. Income Non-Utility Operations:
 Revenues from the water customers were included in the sewer division's income from non-utility operations. Staff's adjustment removes the mis-classified water revenues from the sewer division's test-period other income.
