FLOYD AND PIKE COUNTIES, KENTUCKY)
("KY NO. 0245/CVG 75/LLOYD FACILITY"))

O R D E R

On September 23, 1997, the Commission entered its Order granting a Certificate of Public Convenience and Necessity to GTE Mobilnet incorporated ("GTE Mobilnet") to construct a cellular facility at 335 Enzweiler Road near Alexandria, in Campbell County, Kentucky. Subsequently, on October 24, 1997, GTE Mobilnet filed a letter, which the Commission will treat as a motion, stating that it had erroneously failed to notify certain adjoining property owners at the time it filed its original application. When it realized its error, GTE Mobilnet states, it ceased construction on the facility.

GTE Mobilnet states that it has contacted the property owners who, pursuant to Commission regulation, were required to be notified. As a result of that contact, the property owners in question have submitted signed statements to GTE Mobilnet stating they do not object to the location and waive all rights they have with respect to same. Those statements have been submitted to the Commission.

Based upon the remedial activity it has undertaken, and the statements submitted by the property owners, GTE Mobilnet requests the Commission to issue an Order stating that construction pursuant to the certificate issued in this case may proceed.

The Commission finds that GTE Mobilnet has taken reasonable action to remedy its unfortunate error. It also appears that the property owners who did not receive appropriate notice have been given opportunity to state any objections they have. No such objection to continuation of construction has been raised. IT IS THEREFORE ORDERED that GTE Mobilnet may proceed with construction in accordance with the certificate of public convenience and necessity issued in this docket on September 23, 1997.

Done at Frankfort, Kentucky, this 14th day of November, 1997.
