PUBLIC SERVICE
COMMISSION

DATE: September 15, 1997
TO: Executive Director, PSC, Commonwealth of KY
FROM: Wayne R. Young *Wayne R Young*
RE: Case No. 97-355

This is in response to the Public Notice I received dated August 29, 1997 about the intent to erect a communication tower near my home. I want to voice my opposition to this proposal. I have not received adequate information to assess the impact of such a structure from either a health/safety or aesthetic perspective. I request that a complete set of engineering plans along with any information your office may have on electromagnet emanations or other questionable health issues surrounding such operations.

I am not sure what I am requesting if I request for intervention. If this means that this will open up the proposal to more public scrutiny, then I would like this to be done. If it means that PSC will take a more in depth review of the project, then I would like this done also. We the public have the right to expect full disclosure and have to rely on your office to protect us from unnecessary infringements on our lives. Since we do not have the technical expertise, we have to count on your office. We know that you will not let us down.

Thank you for your assistance. I will await further instructions on what actions I need to take.
