FACILITY"))	

O R D E R

On July 7, 1999, SBA Towers, Inc. ("SBA Towers") and GTE Wireless of the Midwest Incorporated (collectively, the "Applicants") filed an application seeking a Certificate of Public Convenience and Necessity to construct and operate a wireless telecommunications facility. The proposed facility consists of a guyed antenna tower not to exceed 380 feet in height, with attached antennas, to be located at Route 1 (Allphin Road/Walnut Lick Road), Verona, Gallatin County, Kentucky. The coordinates for the proposed facility are North Latitude 38° 47' 46.51" by West Longitude 84° 43' 52.09".

SBA Towers has provided information regarding the structure of the tower, safety measures, and antenna design criteria for the proposed facility. Based upon the application, the design of the tower and foundation conforms to applicable nationally

recognized building standards, and the plans have been certified by a Registered Professional Engineer.

Pursuant to 807 KAR 5:063, the Applicants have notified the Gallatin County Judge/Executive of the proposed construction. To date, no comments have been filed by the Judge/Executive. The Applicants have filed applications with the Federal Aviation Administration and the Kentucky Airport Zoning Commission seeking approval for the construction and operation of the proposed facility. Both applications have been approved.

The Applicants have filed evidence of the appropriate notices provided pursuant to 807 KAR 5:063. The notices solicited any comments and informed the recipients of their right to request intervention. Two owners of jointly held property (Intervenors) near the proposed construction filed comments and intervened in this matter. However, the Intervenors later withdrew their request for intervention.

Pursuant to KRS 278.280, the Commission is required to determine proper practices to be observed when it finds, upon complaint or on its own motion, that the facilities of any utility subject to its jurisdiction are unreasonable, unsafe, improper, or insufficient. To assist the Commission in its efforts to comply with this mandate, SBA Towers should notify the Commission if it does not use this antenna tower to provide service in the manner set out in its application and this Order. Upon receipt of such notice, the Commission may, on its own motion, institute proceedings to consider the proper practices, including removal of the unused antenna tower, which should be observed by SBA Towers.

The Commission, having considered the evidence of record and being otherwise sufficiently advised, finds that the Applicants have demonstrated that a facility is necessary

to provide adequate utility service and therefore should be granted a Certificate of Public Convenience and Necessity to construct the proposed facility.

IT IS THEREFORE ORDERED that:

1. SBA Towers is granted a Certificate of Public Convenience and Necessity to construct a guyed antenna tower not to exceed 380 feet in height, with attached antennas, to be located at Route 1 (Allphin Road/Walnut Lick Road), Verona, Gallatin County, Kentucky. The coordinates for the proposed facility are North Latitude $38^{\circ} 47' 46.51''$ by West Longitude $84^{\circ} 43' 52.09''$.

2. The Intervenor's motion to be removed as a party to this proceeding is granted.

3. SBA Towers shall immediately notify the Commission in writing, if, after the antenna tower is built and utility service is commenced, the tower is not used for a period of 3 months in the manner authorized by this Order.

Done at Frankfort, Kentucky, this 10th day of December, 1999.

By the Commission

ATTEST:

Executive Director
