ORDER

On September 24, 2001, Salt River Electric Cooperative Corp. ("Salt River") filed an application for approval of an agreement with Louisville Gas & Electric Company ("LG&E") to change the electric territorial boundary for the Frank Cornell property in Mt. Washington, Kentucky.

The proposed changes will realign the electric boundary with property lines. Salt River filed an agreement signed by Salt River and LG&E describing the boundary changes. A map and the affected Mt. Washington topographic quadrant map reflecting the boundary changes were filed and signed by Salt River and LG&E. No existing customer will be reassigned to a different electric supplier as a result of the proposed territorial boundary changes.

Based on the application and being advised, the Commission finds that the proposed boundary changes will prevent wasteful duplication of facilities, avoid unnecessary encumbering of the landscape, minimize disputes between Salt River and LG&E, and provide adequate and reasonable service to all affected areas.

IT IS THEREFORE ORDERED that the boundary changes as agreed upon by Salt River and LG&E for the Mt. Washington topographic quadrant map are approved.

Done at Frankfort, Kentucky, this 25th day of October, 2001.
