

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

APPLICATION OF KENTUCKY UTILITIES)
COMPANY FOR AUTHORIZATION OF CHANGES) CASE NO.
IN SERVICE TERRITORY WITH CLARK ENERGY) 2002-00400
COOPERATIVE, INC.)

FIRST DATA REQUEST OF COMMISSION STAFF TO
KENTUCKY UTILITIES COMPANY

Kentucky Utilities Company (KU) is requested, pursuant to Administrative Regulation 807 KAR 5:001, to file with the Commission the original and 7 copies of the following information, with a copy to all parties of record. The information requested herein is due no later than December 18, 2002.

On the submitted 1 = 100 map of the proposed change, there is a table showing the KY State Plane South Zone NAD 83 (Feet) coordinates for select points along the proposed line. The coordinate for point A, north 2189205.20, does not appear to match the mapped line. However, if two digits are inverted and the number 2182905.20 is used (in place of the original 2189205.20), the point seems to be in a much more logical position. What is the correct north coordinate for point A?
