

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

TARIFF REVISIONS OF SOUTHEAST DAVIESS)
COUNTY WATER DISTRICT REGARDING THE) CASE NO. 2004-00179
PROVISION OF UNMETERED PRIVATE FIRE)
PROTECTION SERVICES)

ORDER

On April 21, 2004, Southeast Daviess County Water District ("Southeast Daviess") submitted proposed revisions to its tariff regarding the provision of unmetered fire protection services. It proposes that these revisions become effective as of April 12, 2004.

As KRS 278.180(1) requires that a utility provide the Commission with 30 days' notice of any rate change or revision and as Southeast Daviess's proposed effective date does not provide the Commission with such notice, the Commission finds that the proposed revisions may not become effective until May 21, 2004 – 30 days after Southeast Daviess's submission.

The Commission further finds that the reasonableness of the proposed revisions requires further investigation, that such investigation cannot be completed by May 21, 2004, and that the proposed revisions should be suspended until October 20, 2004.

IT IS THEREFORE ORDERED that:

1. This proceeding is established to investigate the reasonableness of the proposed revisions.

2. The proposed revisions are suspended up to and including October 20, 2004.

Done at Frankfort, Kentucky, this 21st day of May, 2004.

(Name of Utility)

24. **UNMETERED PRIVATE FIRE PROTECTION SERVICES:**

A double-acting backflow preventer and valve vault shall be installed and maintained by the Customer at each unmetered private fire protection line. The backflow preventer assembly shall be installed in accordance with the District's "Fire Protection Line Double Check Valve and Vault" Detail.

Normal assembly and vault installation shall be within ten (10) feet of the fire line connection point onto the District's main line. The backflow preventer shall be tested and serviced no less than once during each calendar year. Tests and maintenance events shall occur on at least six (6) months interval separation. Annual test results shall be reported to the District on a "Test and Maintenance Form" approved by the District.

Access to the Customer's backflow preventer and vault shall be provided to the District personnel at all reasonable times for inspection; and at any emergency situation; to ensure compliance with the District rules.

The Customer is responsible for all installation, operation, annual testing and maintenance costs related to each backflow preventer assembly.
