CUSTOMERS )	

SECOND DATA REQUEST OF COMMISSION STAFF TO  
EAST KENTUCKY POWER COOPERATIVE, INC.

East Kentucky Power Cooperative, Inc. ("EKPC") is requested, pursuant to 807 KAR 5:001, to file with the Commission the original and five copies of the following information, with a copy to all parties of record. The information requested herein is due on June 28, 2007. Each copy of the data requested should be placed in a bound volume with each item tabbed. Responses to requests for information shall be appropriately indexed, for example, Item 1(a), Sheet 2 of 6, and shall include the name of the witness responsible for responding to the questions related to the information provided. Careful attention shall be given to copied material to ensure its legibility.

Each response shall be under oath or, for representatives of a public or private corporation, a partnership, an association or a governmental agency, be accompanied by a signed certification of the preparer or person supervising the preparation of the response on behalf of the entity that the response is true and accurate to the best of that person's knowledge, information, and belief formed after a reasonable inquiry.

EKPC shall make timely amendment to any prior response if it obtains information upon the basis of which it knows that the response was incorrect when

made or, though correct when made, is now incorrect in any material respect. For any request to which EKPC fails to furnish all or part of the requested information, EKPC shall provide a written explanation of the specific grounds for its failure to completely and precisely respond.

When the requested information has been previously provided in this proceeding in the requested format, reference may be made to the specific location of that information in responding to this request.

1. With reference to bill neutrality, if participation is voluntary and the intent is to modify behavior, why does EKPC believe that bill neutrality is necessary, other than to enable EKPC to recover its embedded costs? Is there a way to recover EKPC's embedded costs other than through bill neutrality?
