

COMMONWEALTH OF KENTUCKY  
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

THE ANNUAL COST RECOVERY FILING     )  
FOR DEMAND SIDE MANAGEMENT BY     )     CASE NO. 2007-00369  
DUKE ENERGY KENTUCKY, INC.         )

O R D E R

Duke Energy Kentucky, Inc. (“Duke Kentucky”) has filed a motion to correct the Commission’s final Order entered on May 14, 2008. Duke Kentucky notes that the Order on page 2, paragraph 2, contains an incorrect demand-side management (“DSM”) rate for non-residential customers. That paragraph states, in relevant part, as follows:

For electric customers, Duke Kentucky’s proposed factor for residential customers is \$.001416 per kWh, an increase from the current factor of \$.000449 per kWh. **Duke Kentucky’s proposed factor for distribution service for non-residential service customers is \$.01405 per kWh,** an increase from the current factor of \$.001237 per kWh.

(Emphasis added).

Duke Kentucky states that the correct DSM rate for non-residential customers should be \$.001405 per kWh. The support for the proposed rate changes was provided in Appendix J to Duke Kentucky’s application, which listed the correct tariff charge for non-residential electric distribution customers served under rates DS, DP, DT, GS-FL, EH, and SP as \$.001405 per kWh.

Having reviewed the motion, the record, and being otherwise sufficiently advised, the Commission finds that the DSM rate for non-residential customers was correctly stated in Duke Kentucky's application, but incorrectly stated in the May 14, 2008 Order.

IT IS THEREFORE ORDERED, to be entered, *nunc pro tunc*, that Duke Kentucky's proposed factor for distribution service for non-residential service customers is \$.001405 per kWh.

Done at Frankfort, Kentucky, this 30<sup>th</sup> day of May 2008.

By the Commission
