The information requested herein is due on or before May 1, 2017. Responses to requests for information shall be appropriately bound, tabbed and indexed. 3. Provide the estimated average fuel cost per kWh for 2017 and 2018.

4. If the Commission were to decide that a change in the base fuel cost was necessary, provide which month should be used as the base period and explain why that

month is the most representative of fuel costs going forward. Include in the response the present and proposed rates if a change were to be ordered using that base period.
