

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

ELECTRONIC PURCHASED GAS ADJUSTMENT)	CASE NO.
FILING OF MARTIN GAS, INC.)	2026-00145

ORDER

On May 28, 2026, Martin Gas, Inc. (Martin) filed its proposed Gas Cost Recovery (GCR) rate report to be effective July 1, 2026. Martin's previous GCR rate was approved in Case No. 2026-00044.¹

LEGAL STANDARD

The Commission's standard of review for GCR rates is well settled as stated in KRS 278.274(1):

In determining whether proposed natural gas utility rates are just and reasonable, the commission shall review the utility's gas purchasing practices. The commission may disallow any costs or rates which are deemed to result from imprudent purchasing practices on the part of the utility.

Further, the utility has the burden to prove the rates are just and reasonable and the Commission may reduce the purchased gas component of the utility's rates, or the rates charged by an affiliated company to the extent the amount is deemed to be unjust or unreasonable.²

¹ Case No. 2026-00044, *Electronic Purchased Gas Adjustment Filing of Martin Gas, Inc.* (Ky. PSC Mar. 26, 2026).

² KRS 278.274(2), KRS 278.274(3)(c), and KRS 278.274(3)(d).

DISCUSSION

After reviewing the record in this case and being otherwise sufficiently advised, the Commission finds that Martin's report includes revised rates designed to pass on to its customers its expected change in gas costs. Martin's report sets out an Expected Gas Cost (EGC) of \$6.1032 per Mcf, which is an increase of \$0.1199 per Mcf from its previous EGC of \$5.9833 per Mcf. Martin's report sets out no supplier Refund Adjustment. Martin's report sets out a current quarter's Actual Adjustment (AA) of \$0.2184 per Mcf. Martin's total AA is \$0.3246 per Mcf, which is a decrease of \$0.2022 per Mcf from its previous total AA of \$0.5268 per Mcf. Martin's report sets out a current quarter Balance Adjustment (BA) of (\$0.0110) per Mcf. Martin's total BA is \$0.0159 per Mcf, which is a decrease of \$0.0361 per Mcf from the previous total BA of \$0.0520 per Mcf.

Based on the calculations above, the Commission finds that Martin's GCR rate is \$6.4437 per Mcf, which is a decrease of \$0.1184 per Mcf from the previous GCR rate of \$6.5621 per Mcf. The Commission finds that the inputs, resulting components and calculation of Martin's proposed GCR rate of \$6.4437 per Mcf to be reasonable. The Commission further finds that the rates set forth in the Appendix to this Order are fair, just and reasonable and should be approved for service rendered by Martin on and after July 1, 2026.

For the purpose of transparency and to maintain a record of information for future use, the Commission finds that Martin shall submit all invoices it receives along with its monthly usage reports for each month of the reporting period when it files its future GCR rate reports. Should Martin purchase sustainable natural gas from a renewable source

during the reporting period of any future GCR reports, then the supplier, cost, and amount must be documented in its cover letter to the Commission.

IT IS THEREFORE ORDERED that:

1. The rate proposed by Martin and set forth in the Appendix to this Order is approved for service rendered on and after July 1, 2026.

2. Martin shall submit all invoices it receives along with its monthly usage reports for each month of the reporting period when it files its future GCR rate reports.

3. Should Martin purchase sustainable natural gas from a renewable source during the reporting period of any future GCR reports, then the supplier, cost, and amount shall be documented in its cover letter to the Commission.

4. Within 20 days of the date of service of this Order, Martin shall file with this Commission, using the Commission's electronic Tariff Filing System, revised tariff sheets setting out the rate approved herein and reflecting that it was approved pursuant to this Order.

5. This case is closed and removed from the Commission's docket.

Entered on this 26th day of June, 2026.
