

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

* * * * *

In the Matter of:

BEREA COLLEGE ELECTRIC UTILITY) ADMINISTRATIVE
DEPARTMENT EMERGENCY PROCEDURES) CASE NO. 284

O R D E R

On September 24, 1984, the Commission issued its Order to Berea College Electric Utility Department ("Berea College"), directing it to submit its plan of emergency procedures to be followed during any shortage of energy for the generation of electric power. The Commission also ordered that in the preparation of the emergency procedures submitted, Berea College was to consider the appropriateness of the use of the procedures and substance contained in Appendix A which was part of the Order.

Berea College's proposed emergency procedures were filed with the Commission on October 16, 1984.

The Commission having considered the evidence of record and being advised, is of the opinion and finds that:

1. It is prudent and desirable for a utility to have contingency plans available prior to the onset of an emergency condition;
2. The emergency procedures proposed by Berea College have incorporated the procedures and substance contained

in the Commission's Order of September 24, 1984, and therefore the emergency procedures should be approved; and

3. The emergency procedures proposed by Berea College give due consideration to the public health, safety and welfare without undue prejudice or disadvantage to any customer.

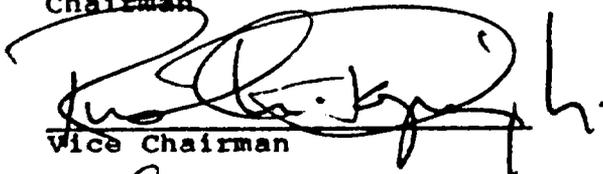

IT IS THEREFORE ORDERED that the emergency procedures filed with the Commission on October 16, 1984, by Berea College be approved as submitted.

IT IS FURTHER ORDERED that within 20 days of the receipt of this Order, Berea College shall file a new tariff with the Commission that incorporates the emergency procedures authorized in this Order.

Done at Frankfort, Kentucky, this 19th day of December, 1984.
