

COMMONWEALTH OF KENTUCKY  
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

INVESTIGATION OF INTRALATA CARRIER ) ADMINISTRATIVE  
BILLED MINUTES OF USE AS A ULAS ALLOCATOR ) CASE NO. 311

O R D E R

On October 23, 1987, US Sprint Communications Company ("Sprint") filed a petition requesting confidential treatment of information concerning minutes of use data for the year ending June 30, 1987. As grounds for the request, Sprint states that the material is supplied in response to the Commission's September 30, 1987 Order and that disclosure would cause substantial competitive injury. Also, the Company claims that the material is not known outside the Company and is known only to a limited number within the Company. Finally, Sprint argues there is no public interest in disclosure of the information.

Also, on October 23, 1987, AT&T Communications of the South Central States, Inc. ("AT&T") filed a petition for confidential treatment of information concerning the Company's channel terminations, terminating access minutes, conversation minutes, and billed minutes. The competitive significance of the information as it relates to market share is the primary basis for the request. Additionally, the Company states that the material is not known outside the Company, nor disseminated within AT&T, that the information is provided in response to the Commission's

September 30 Order, and there is no public interest in its disclosure.

The Commission, being so advised, is of the opinion and finds that the petitions of Sprint and AT&T should be granted, pursuant to 807 KAR 5:001, Section 7.

BE IT SO ORDERED.

Done at Frankfort, Kentucky this 19th day of November, 1987.

PUBLIC SERVICE COMMISSION

  
for the Commission
