TOPSDISPLAY ————————————————————————————————

ALL fields on the ASR which relate to Operator Services and Branding must be completed. Failure to do so may result in an order which is delayed or incorrectly provisioned. The Preferred Trunk Signaling for Directory Assistance and Operator Call Processing is Modified Operator Service Signaling (MOSS) with Expanded Inband (TK SIG + OE on TQ).

Provide the following information for each location where service is ordered.

Please check those services you are ordering on this group of ASRs.

Directory Assistance (DA)	___	Operator Call Processing	___
Directory Assistance with Call Completion (DACC)	___	Busy Line Verification/Interruption *(Only available when BST WILL provide Operator Call Processing)*	___
Intercept **	___	Inward: 1 Way —— 2 Way —— *(Only available when BST WILL NOT provide Operator Call Processing)*
