Re: Case 2001-00117
Conference of March 14, 2006

Dear Mr. Wuetcher,

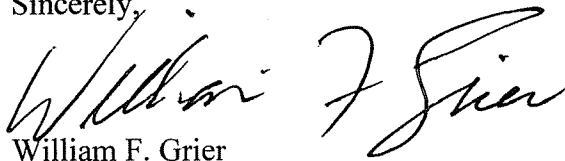

I was out of the country when the minutes of the subject Conference were issued and was not able to respond within the time specified. I would, however, like to correct a misquote of me on page 5 of the minutes.

The minutes quote me as saying “. . . that the KRA has no intention of increasing the size of Pools 9 and 10.” As summary of what I said was: “. . . that the size of pool 9 is not planned for an increase but the present official position of the KRA is to raise Pool 10 by 6-feet. Both the timing and certainty of this increase is not now known”.

Please distribute this correction to the distribution list, as it important to the water supply of central Kentucky.

Thank you for your attention to this matter.

Sincerely,

William F. Grier
