April 5, 2004

To Whom It May Concern:

Estill County Energy Partners, LLC is developing a merchant electric generating facility in Estill County, KY at the site of a former coal processing plant located at 898 Coal Wash Road. You have asked about local ordinances, regulations and planning and zoning requirements applicable to this site and proposed facility.

This letter is to confirm that there are no applicable local ordinances and regulations concerning noise control and that there are no other local planning and zoning ordinances applicable to the site or the proposed facility. There are no setback requirements established by any local planning and zoning commission applicable to the site or the proposed facility.

If you require additional information, please feel free to contact me at the above-listed number.

Sincerely,

Hon. Wallace Taylor  
Estill County Judge Executive
