

Kentucky State Board on Electric Generation and Transmission Siting  
P.O.Box 615  
Frankfort, KY 40602

*Case No. 2007-00172*

## Public Comment Form

I think a coal fired generating plant would be a shot in the arm for local and surrounding counties. The industrial community may take a closer look at relocating in this area with such an increase of electrical capacity. The local job market would benefit right at the onset of such a project, but, at completion create steady gains in jobs and industrial development so badly needed for this areas residents.

Thanks,

Michael W. Wells
