RE: ***The Application of Kentucky Pioneer Energy, LLC For a Construction Certificate to Construct a Merchant Electric Generating Facility***
Case No. 2002-00312

Dear Mr. Dorman:

This letter is in response to a letter from Robert G. Blanton of the City of Winchester Planning and Community Development dated September 23, 2003 to Thomas Dorman as Executive Director of the Kentucky State Board on Electric Generation and Transmission Siting (the "Siting Board").

The characterization of the testimony of Robert G. Blanton at the Siting Board hearing, conducted on August 22, 2003, in the Brief filed on behalf of Kentucky Pioneer Energy, LLC ("Kentucky Pioneer"), is completely accurate and appropriate, as verified by a review of the Transcript of Evidence at pages 83-87. Mr. Blanton's testimony did, in fact, refer *specifically* to the East Kentucky Power site located in Trapp, Kentucky, and his opinions as to the appropriate zoning classifications for the proposed use by Kentucky Pioneer *at that* specific site.

Yours very truly,

Kendrick R. Riggs
