PSCK No. 3

CINCINNATI BELL TELEPHONE COMPANY

Section 2.1
Original Page 2

ALTERNATIVE REGULATION PLAN

A. GENERAL

(N)

The rules set forth in this tariff shall govern the manner by which Cincinnati Bell Telephone (the Company) may set prices, introduce new services or otherwise offer regulated services as filed with and approved by the Kentucky Public Service Commission.

The objectives of this Alternative Regulation Plan are to permit the Company to meet customers' needs and enhance the efficiency of providing telecommunications services in Kentucky; maintain uniform rates in the Company's entire serving area of Kentucky, Ohio and Indiana by providing similar pricing throughout a single consolidated metropolitan statistical area; and continue to provide high quality service.

B. DEFINITIONS

1. Alternative regulation plan means the rules set forth in this tariff which has been approved by the Commission pursuant to KRS 278.512.
2. Basic local exchange service has the same meaning as set forth in 807 KAR 5:061, Section 1, Paragraph 4.
3. CBT or Company refers to Cincinnati Bell Telephone Company.
4. Ceiling Rate is the maximum rate that may be charged pursuant to Section 2.1 part C of this tariff.
5. Cell 1 contains basic local exchange services that provide access to CBT's network, services deemed essential for the provision of public safety or the protection of privacy, all service installation or maintenance services not available from other sources and usage associated with such basic exchange service. Cell 1 services are subdivided into Core Services and Non-Core services.

(N)

GENERAL EXCHANGE TARIFF
PSCK No. 3

CINCINNATI BELL TELEPHONE COMPANY

Section 2.1
Original Page 3

ALTERNATIVE REGULATION PLAN

B. DEFINITIONS (Continued)

6. Cell 2 contains basic local exchange services or any other public telecommunications services, including installation charges, for which an adequate alternative, not necessarily similar in nature and function, is available from at least one other provider in the relevant market but which are deemed not to be fully competitive by the Commission. The ceiling rate for Cell 2 services shall be 50% above the initial rate authorized by the Commission until January 25, 2002 and increase by 10 percentage points annually thereafter (for example to 60% beginning January 26, 2002).
7. Cell 3 contains basic local exchange services, or any other public telecommunications service, not properly classified in Cell 1 or Cell 2. Cell 3 services include discretionary or optional services that are not necessary to access CBT's network. The ceiling rate for Cell 3 services shall be 75% above the initial rate authorized by the Commission until January 25, 2002 and increase by 15 percentage points annually thereafter (for example to 90% beginning January 26, 2002).
8. Cell 4 contains services deemed fully competitive, thus requiring no upward limitation on price changes. Pricing will be determined by the Company.
9. Commission refers to the Public Service Commission of Kentucky ("PSCK").
10. Core Services are essential basic local exchange services within Cell 1. Residence core services have no upward pricing flexibility unless authorized by the Commission, while non-residence core services have 5% upward annual price flexibility. Any unused upward pricing flexibility of one period cannot be utilized in subsequent periods.
11. Long-run service incremental cost ("LRSIC") means the incremental cost for a new or existing product or service, including an allocation of joint costs where appropriate.
12. New Service is a function, feature, or capability that is not offered by the Company to its end users as of January 25, 1999. Services introduced after January 25, 1999 will be classified in Cell 3 unless another Cell placement is sufficiently justified.

CINCINNATI BELL TELEPHONE COMPANY

Section 2.1
1st Revised Page 4
Cancels Original Page 4

ALTERNATIVE REGULATION PLAN

B. DEFINITIONS (Continued)

13. Non-core Services are Cell 1 Services, other than Core Services. Residence non-core services have upward pricing flexibility of 5% per year over the initial rate authorized by the Commission, while non-residence non-core services have 10% annual upward pricing flexibility. Any unused upward pricing flexibility of one period cannot be utilized in subsequent periods.
14. Packaging is the development of market offerings by the Company that include multiple functions, features, or capabilities at a price or prices which apply when the offering is purchased by the end-user customer. These packages could include combinations of services from both regulated and/or nonregulated services.
15. Rate Bands are the geographic rate areas in Kentucky by which the Company will determine rates for Basic Exchange Service (Access Lines). See map in Exchange Rate Tariff, PSCK No. 2, Section 2, Page 6.

C. SERVICE CLASSIFICATION PRICING STRUCTURE

For the purposes of measuring pricing parameters, LRSIC shall establish the price floor for regulated services. The initial rates authorized by the Commission in its Order dated January 25, 1999 shall serve as the baseline for CBT's pricing flexibility. The following pricing rules are to be applied to a service by band for banded services and by service for nonbanded services. Cell placement for all services are listed at the end of this section. The cell pricing rules do not apply to promotional offerings, special assemblies and termination liability clauses. Services that mirror federal rates, e.g. access charges or that follow federal guidelines, e.g. pole attachments, may continue to change in accordance with the federal changes, regardless of the cell pricing rules.

(T)
(T)

1. Cell 1 Residence Core Services

While these services have no upward pricing flexibility CBT shall have the right to adjust these rates to implement changes mandated by federal or state legislative or regulatory authority or to seek adjustment to reflect a material impact of federal or state legislative or regulatory action on CBT's costs of providing such service.

ALTERNATIVE REGULATION PLAN

C. SERVICE CLASSIFICATION PRICING STRUCTURE (Continued)

2. Cell 1 Residential Noncore and Nonresidential Core Services

A 5% increase in price per year is permitted for each service classified in this category. Price changes within the defined appropriate ranges become effective no later than the 31st day after filing, unless suspended by the Commission. If upward pricing flexibility afforded a service in any given year is not used, unused pricing increases may not be reserved and used in subsequent years. (N)

3. Cell 1 Nonresidential Noncore Services

A 10% increase in price per year is permitted for each service classified in this category. Price changes within the defined ranges will become effective no later than the 31st day after filing, unless suspended by the Commission. If upward pricing flexibility afforded a service in any given year is not used, unused pricing increases may not be reserved and used in subsequent years. (N)

4. Cell 2 Services

Prices may increase a maximum of 50% from the service's initial rate until January 25, 2002. Thereafter, the 50% cap will increase by an additional 10 percentage points annually. Price changes within the defined ranges will become effective no later than the 31st day after filing, unless suspended by the Commission. (N)

5. Cell 3 Services

Prices may increase a maximum of 75% from the service's initial rate until January 25, 2002. Thereafter, the 75% cap will increase by additional 15% percentage points annually. Price changes within the defined ranges will become effective no later than the 31st day after filing, unless suspended by the Commission. Residential Call Waiting's upward pricing flexibility shall be limited to 15% annually. (N)

6. Cell 4 Services

No upward pricing limitations and CBT may increase rates which will become effective no later than the 31st day after filing, unless suspended by the Commission. (N)

ALTERNATIVE REGULATION PLAN

D. REGULATIONS

1. Tariff Suspension

Under full or partial Commission suspension, the service introduction or change in conditions or terms of service shall be eligible for implementation by the Company pending further Commission action. CBT may elect to implement the tariff, subject to review, pending Commission approval.

2. Promotional Activities

All services shall be eligible for promotional activity. For promotions of 90 days or less, CBT will provide an addendum to its tariff that specifies the details of the promotion and the proposed duration. Requests for promotional offerings will be filed with the Public Service Commission of Kentucky not less than twenty (20) days prior to the effective date, in accordance with the rules and regulations in effect at the time of the special promotion. Should the Company elect to extend a promotion beyond the initial 90-day period, the Company will notify the Commission, and the extension shall be effective the following day. Promotions may be discontinued prior to their term expiration dates without notification to the Commission, at the Company's discretion. However, in the event the promotion is discontinued, all existing obligations to customers previously enrolled in the promotion shall be honored, and CBT shall notify the Commission Staff within three business days of discontinuance.

(N)
|
(N)

3. Packaging of Services

Combinations of existing services that are combined into a single offering or "package" will be permitted to be implemented by the Company. Packages may contain any combination of regulated and/or non-regulated services and may be introduced in accordance with the procedures for new services based on the service located in the most restrictive Cell. If a package includes a residential access line (or a rate that CBT contends is below LRSIC), CBT shall demonstrate that the price for the package covers the sum of the residential tariff rates plus the LRSIC cost for the other regulated services in the package. The general procedures for withdrawal of a service apply with the condition that CBT may withdraw any package as long as the underlying services remain available for individual purchase.

GENERAL EXCHANGE TARIFF
PSCK No. 3

CINCINNATI BELL TELEPHONE COMPANY

Section 2.1
Original Page 7

ALTERNATIVE REGULATION PLAN

D. REGULATIONS (Continued)

(N)

4. Special Assemblies

Special Assemblies shall be included in Cell 3 and continue their current regulatory treatment as nontariffed services. Construction services shall also remain as individually priced customer solutions. None of the proposed pricing rules under this plan change the rates and regulations for these or similar services.

5. Contracts

Contracts shall be used to provide the Company with flexibility to price according to individual customers' needs. The Company may enter into individual contracts with its customers for any of its services in response to competitive or other unique circumstances. The Company will file the contract with the Commission and the contract will become effective on the day of signing and approved on the 30th day, unless suspended by the Commission. CBT may seek pre-approval of contractual arrangements. Once approved under the 30 day process, individual customer contracts that meet the parameters of the pre-approved contract shall be considered approved upon filing with the Commission. CBT may request confidential and proprietary status of selected aspects of its contracts.

6. Market or Technical Trials

As part of its ongoing product development process, operational process improvement efforts and initiatives to develop customized or ubiquitous service offerings, the Company may engage in market or technical trials for new or improved services. CBT shall notify the Commission Staff of trials, together with the time frame and objectives of the trials. Such trials may be initiated and discontinued at the Company's discretion. Trials may be converted to new services upon reasonable customer notification. Commission approval for technical or market trials is not required.

ALTERNATIVE REGULATION PLAN

D. REGULATIONS (Continued)

7. New Services

All new services will be classified as Cell 3 unless the Company proposes and the Commission agrees that a particular service be classified elsewhere.

Services proposed to be classified as Cell 1 Core, Cell 1 Noncore, Cell 2, Cell 3 or Cell 4 shall be filed with the Commission at least thirty days prior to the effective date, and shall become effective no later than the 31st day after filing, unless suspended by the Commission. Any objections must be filed within 14 days of CBT's filing.

(N)
|
(N)

(D)
|
(D)

The price floors for new services will follow the Cell pricing guidelines. The initial rate for a new service shall be used to define the ceiling rate.

8. Changes in Terms or Conditions, Withdrawal of Services or Restructuring Services

The Company may disaggregate existing services into multiple services or elements, restructure existing or new offerings or deaverage prices for services. The Company will file changes with the Commission at least 30 days in advance of the effective date and changes shall become effective on the 31st day, unless suspended by the Commission. Any objections to the filing must be docketed with the Commission within 14 days of notice. The Company shall have seven days to respond to any objection. The Commission shall resolve the objection within 30 days from the date of notification by the Company.

Price changes within the appropriate service classification ranges will be filed with the Commission at least 30 days in advance of the effective date and changes shall become effective no later than the 31st day after filing, unless suspended by the Commission. Any objections to the filing must be made within 14 days of docketing. The Company shall have seven days to respond to any objection. The Commission shall resolve the objection within 30 days from the date of notification by the Company.

ALTERNATIVE REGULATION PLAN

D. REGULATIONS (Continued)

8. Changes in Terms or Conditions, Withdrawal of Services or Restructuring Services (Cont'd)

Any withdrawn service may be reintroduced by the Company if it elects to do so under the terms of the plan for New Services.

CBT may file to change a service Cell classification at any time. Reclassification may be requested for services in their current form or as part of a service restructuring.

9. Waiver Requests

CBT may file for a waiver from any of the foregoing pricing and tariffing guidelines. A waiver may be necessary to allow CBT an opportunity to meet competitive offerings or to respond to changes in the marketplace.

E. EXOGENOUS CHANGES

CBT shall have the right to adjust its rates, including residential basic access line service, to implement changes mandated by federal or state legislative or regulatory authority or to seek adjustment to reflect a material impact of federal or state legislative or regulatory action on CBT's costs of providing such service, subject to Commission review.

(T)
(T)

F. SERVICE QUALITY ISSUES

CBT shall not allow a deterioration of its quality of service to its Kentucky customers below the minimum service standards ("MSS") as currently or prospectively established by the Commission.

CBT shall continue to provide reports to the Commission Staff regarding service quality in its service area. Contemporaneous with providing the reports to the Commission Staff, CBT will provide the Attorney General's Office of Utility and Rate Intervention (AG) with the reports that are provided to the Commission Staff. The AG will have the right to submit information or comments to the Commission Staff in the event that the AG believes that the reports provided by CBT reflect a deterioration in the quality of service provided by CBT to its customers which falls below the then current MSS.

This provision does not foreclose the AG from filing a complaint based on the alleged failure of CBT to satisfy the MSS as currently or prospectively established by the Commission.

ALTERNATIVE REGULATION PLAN

G. SECTION 251

CBT as a qualifying 2% Company reserves its right to seek Section 251 relief in the future in accordance with the Telecommunications Act of 1996.

H. TERM OF THE PLAN

There is no defined term for this Plan.

I. RESIDENTIAL RATE FREEZE

Residential basic local exchange services (access line) monthly rates will not increase before January 25, 2004 (C)
unless ordered by a state or federal regulatory commission or legislative body.
