Careful attention should be given to copied material to ensure that it is legible. Where information herein has been previously provided, in the format requested herein, reference may be made to the specific location of said information in responding to this information request.

1. Has Clark done a feasibility study to determine whether renovation and expansion to the existing building is more economical in the long run than constructing new headquarters office facilities at its existing site?

- a. If yes, provide the study.
- b. If no, explain why it is not necessary.
- c. Explain how it was determined that the new expansion should be 4,200 square feet.

2. When was the construction begun on the new facilities?
