RE: Response to Commission Information Request of June 13, 2003  
Case No. 2003-00016: Application for a Certificate of Convenience & Necessity

Dear Mr. Dorman,

Clark Energy is submitting a response to the Commission's June 13 information request regarding our Application for a Certificate of Convenience and Necessity, Case No. 2003-00016. A Certificate of Convenience and Necessity is required to construct distribution facilities according to our new three-year construction work plan program. Our response to the Commission's June 13 information request and all supporting documentation is being filed using the procedures and guidelines of the Commission's electronic filing initiative. One original copy, however, is being submitted for the Commission's official case file. The response and all supporting materials filed electronically in connection with Case No. 2003-00016 are a true, accurate and complete representation of the original documents.

The Commission is being notified of Clark Energy's response filing by e-mailing this transmittal letter under filename "Clark\_read1st\_062103.pdf" to [pscfilings@mail.state.ky.us](mailto:pscfilings@mail.state.ky.us). This e-mail notification to the Commission includes a second document under filename "Clark\_index\_062103.pdf", which contains a list of all documents and a brief description of their contents for all response materials filed electronically.

Please contact me ([smesser@clarkenergy.com](mailto:smesser@clarkenergy.com)) if you have any questions or need additional information.

Respectfully,

Shannon D. Messer  
System Engineer
