RE: Review of the Federal Communications Commission's Triennial Review Order
Regarding Unbundling Requirements for Individual Network Elements
Case No. 2003-00379

Dear Mr. Dorman:

Cincinnati Bell Telephone Company ("CBT") hereby notifies the Commission that it does not intend to respond to AT&T Communication of the South Central States, LLC's ("AT&T") First Requests for Production of Documents and First Set of Interrogatories (collectively, "Requests") dated October 10, 2003. The Requests were served on incumbent local exchange carriers ("ILECs"), including CBT, prior to the time that the Commission required the specified ILECs to file petitions seeking to overcome the national presumption of impairment with respect to mass market switching, loops or transport.¹ CBT did not file such a petition and is not challenging the national presumption of impairment for market switching, loops or transport at this time. Thus, the Commission will not be conducting an impairment analysis with respect to any of the markets in CBT's traditional Kentucky operating area at this time. CBT notified counsel for AT&T if CBT had not heard from AT&T as of today's date, November 10, 2003, CBT would notify the Commission that no answers would be provided. CBT has not heard from AT&T that it expects CBT to provide responses to the Requests.

If you have any questions about this notice, please contact me at (513) 397-7260.

Sincerely,

/s/ Jouett Kinney
Jouett Kinney
