**MCI'S OBJECTIONS AND RESPONSES TO BELLSOUTH
TELECOMMUNICATIONS, INC.'S SECOND SET OF
INTERROGATORIES (1-28) AND SECOND
REQUEST FOR PRODUCTION OF DOCUMENTS (1-5)**

MCI WorldCom Communications, Inc. and MCImetro Access Transmission Services, LLC (collectively "MCI"), hereby objects and responds to BellSouth Telecommunications, Inc.'s (hereinafter "BellSouth") Second Set of Interrogatories and Requests for Production of Documents to MCI¹. The responses made to BellSouth's interrogatories and requests for production of documents are will be made subject to these and subsequent-stated objections, the Protective Agreement previously executed between the parties, and any protective order as may be issued by the Kentucky Public Service Commission (the "Commission") in this docket. Pursuant to the protective agreement between BellSouth and MCI, MCI is providing and will provide certain confidential identified below to BellSouth.

General Objections

MCI makes the following General Objections to BellSouth's Second Set of Interrogatories and Second Request for Production of Documents, including the applicable

¹ BellSouth's "Second" set of interrogatories is the first set authorized by the Commission's procedural schedule and incorporates by reference the switching questions mailed prior to such schedule.

definitions and general instructions therein (“BellSouth discovery”), which, as appropriate, are specifically identified and incorporated into the relevant responses below.

1. With regard to Interrogatories Nos. 14-27 and Requests for Production of Documents Nos. 1-5, MCI has interpreted the BellSouth discovery to apply to MCI’s regulated intrastate operations in Kentucky and will limit its responses accordingly. To the extent that any BellSouth discovery is intended to apply to matters that take place outside the state of Kentucky and which are not related to Kentucky intrastate operations subject to the jurisdiction of the Commission, MCI objects to such request as irrelevant, and, with regard to Interrogatories Nos. 14-27 and Requests for Production of Documents Nos. 1-5, overly broad, unduly burdensome, and oppressive.

2. MCI objects to the BellSouth discovery to the extent that such discovery calls for information which is exempt from discovery by virtue of the attorney-client privilege, work product privilege, or other applicable privilege.

3. MCI objects to the BellSouth discovery insofar as such discovery is vague, ambiguous, overly broad, imprecise, or utilizes terms that are subject to multiple interpretations but are not properly defined or explained for purposes of these requests. Any responses provided by MCI in response to the BellSouth discovery will be provided subject to, and without waiver of, the foregoing objection.

4. MCI objects to the BellSouth discovery insofar as such discovery is not reasonably calculated to lead to the discovery of admissible evidence and is not relevant to the subject matter of this action.

5. MCI objects to the BellSouth discovery insofar as it seeks information or documents, or seeks to impose obligations on MCI which exceed the requirements of the

Kentucky Rules of Civil Procedure, Kentucky law, or any other applicable laws, rules, or procedures, including rules of the Commission.

6. MCI objects to providing information to the extent that such information is already in the public record before the Kentucky Public Service Commission or which is already in the possession, custody, or control of BellSouth.

7. MCI objects to the BellSouth discovery to the extent that such discovery is overly broad, unduly burdensome, expensive, oppressive, or excessively time consuming as written.

8. MCI objects to each and every request to the extent that the information requested constitutes trade secrets or confidential commercial or financial information of a proprietary nature which are protected from disclosure pursuant to KRS 61.878(1)(c)(1). To the extent that BellSouth's requests seek proprietary confidential business information which is not the subject of any such privilege, MCI will make such information available to counsel for BellSouth pursuant to an appropriate Protective Agreement, subject to any other general or specific objections contained herein.

9. MCI is a large corporation with employees located in many different locations. In the course of its business, MCI creates countless documents that are not subject to Kentucky Public Service Commission or FCC retention of records requirements. These documents are kept in numerous locations and are frequently moved from site to site as employees change jobs or as the business is reorganized. Therefore, it is possible that not every document has been identified in response to these requests. MCI will conduct a reasonable and diligent search of those files that are reasonably expected to contain the requested information. To the extent that the BellSouth discovery purports to require more, MCI objects on the grounds that compliance would impose an undue burden or expense.

10. MCI objects to the BellSouth discovery that seeks to obtain “all,” “each,” or “every” document, item, customer, or other such piece of information to the extent that such discovery is overly broad and unduly burdensome. Any answers that MCI may provide in response to the BellSouth discovery will be provided subject to, and without waiver or, this objection.

11. MCI objects to the BellSouth discovery to the extent such discovery seeks to have MCI create documents not in existence at the time of the request.

12. MCI objects to the BellSouth discovery to the extent that such discovery is not limited to any stated period of time or relates to a stated period of time that is longer than is relevant for purposes of the issues in this docket, as such discovery is overly broad and unduly burdensome.

13. In light of the short period of time MCI has been afforded to respond to the BellSouth discovery, the development of MCI’s positions and potentially responsive information to the BellSouth requests is necessarily ongoing and continuing.

14. MCI objects to the BellSouth discovery to the extent it seeks information not within MCI’s possession, control, or custody or to the extent the BellSouth discovery requests that MCI provide information that MCI does not maintain in the ordinary course of business.

15. MCI objects to the BellSouth discovery to the extent it seeks information regarding MCI’s projections regarding future services, revenues, marketing, strategies, equipment deployments, or other such future business plans as such requests are trade secrets and, for purposes of this proceeding, would be highly speculative and irrelevant to the issues to be decided in this docket. Moreover, MCI’s future plans are irrelevant because the TRO concerns a hypothetical CLEC.

16. MCI objects to each and every interrogatory that seeks information regarding MCI's operations in ILEC service areas other than the BellSouth ILEC service area within the state of Kentucky as such information is irrelevant to BellSouth's case in this docket and such discovery is overly broad and unduly burdensome.

17. MCI objects to each and every interrogatory that seeks to obtain information regarding "former officers, employees, agents, directors, and all other persons acting or purporting to act on behalf of MCI" as such information is not within MCI's control, it would be unduly burdensome to attempt to obtain, and it is likely irrelevant.

18. Outside of the discovery request served by BellSouth in this proceeding, there have been discussions between BellSouth and some of the CLECs that this discovery is "regional" in nature and that BellSouth would prefer that the CLECs respond on a regional basis without additional service in these other states. At this point in time, without necessarily agreeing or disagreeing with BellSouth's request for regional answers, MCI reserves its rights to object to providing responsive information for states other than Kentucky.

19. MCI objects to the BellSouth discovery to the extent that such discovery seeks to impose an obligation on MCI to respond on behalf of subsidiaries, affiliates, or other persons that are not parties to this case on the grounds that such discovery is overly broad, unduly burdensome, oppressive, and not permitted by applicable discovery rules. MCI further objects to any and all BellSouth discovery that seeks to obtain information from MCI for MCI subsidiaries, affiliates, or other related MCI entities that are not certificated by the Commission.

INTERROGATORIES

INTERROGATORY 1. Affirm or deny that you have self-provided high capacity transport facilities that you own (i.e., any DS3 or greater facilities, including dark fiber)

that provide transport along a route between a pair of ILEC central offices or wire centers in Kentucky for use in your own operations. The facilities must terminate to an active physical or virtual collocation (includes all types of collocation, not just those qualifying under section 251 (c)(6) at each end of the transport route) associated with each central office of the pair and be operationally ready to provide transport into or out of each office of the pair. Answer this question in the affirmative if you are self-providing such facilities. For purposes of this question, you “own” transport facilities if (i) you have legal title to the facility; or (ii) if you have obtained dark fiber under a long term (10 or more years) IRU and have attached your own optronics to light the facility. Facilities obtained through any other means, including but not limited to special access, unbundled network elements or other services or facilities obtained from third parties, should not be included in this response.

MCI RESPONSE: MCI adopts and incorporates its General Objections 4, 5, 7, 8, 9, 13, 16 and 19, as if set forth herein verbatim. Subject to, and without waiving these objections, MCI states as follows: MCI has provided BellSouth with a list of its "On-Net" collocations. This list identifies the BellSouth wire center buildings that are physically on the network owned by MCI. Once traffic is delivered to MCI at any of its on-net collocation sites it can be delivered to any other MCI on-net collocation locations without leaving MCI's network. MCI engineers its network to provide services to end user customers. MCI does not engineer its network to move traffic between points on other carriers' (e.g., ILECs') networks. See Confidential Attachment C.

Response provided by: Objections provided by Counsel. Substantive response provided by Greg Darnell, MCI, 6 Concourse Parkway, Suite 600, Atlanta, Georgia 30328.

INTERROGATORY 2. Affirm or deny that you offer to carriers on a wholesale basis DS1 or higher transport facilities, or dark fiber transport facilities that you own that provide a route between a pair of ILEC central offices or wire centers, to one or more pair of wire-centers, in each/any of the nine states. The facilities must terminate to an active

physical or virtual collocation (includes all types of collocation, not just those qualifying under section 251 (c)(6) at each end of the transport route) associated with each office of the pair and be operationally ready to provide transport into or out of each office in the pair. Answer this question in the affirmative if you are offering such facilities, or (ii) if you have obtained on a an unbundled, leased or purchased basis dark fiber and have attached your own optronics to light the facility and are serving customers using the facility. Facilities obtained through any other means, including but not limited to special access, other unbundled network elements or other services obtained from third parties, should not be included in this response.

MCI RESPONSE: MCI adopts and incorporates its General Objections 4, 5, 7, 8, 9, 13, 16, and 19, as if set forth herein verbatim. Subject to, and without waiving these objections, MCI states as follows: See Confidential Attachment C.

Response provided by: Objections provided by Counsel. Substantive response provided by Greg Darnell, MCI, 6 Concourse Parkway, Suite 600, Atlanta, Georgia 30328.

INTERROGATORY 3. Affirm or deny whether you have acquired on a wholesale basis from a third party (other than the ILEC or a CLEC that is a party to this proceeding) DS1, DS3, or dark fiber transport between two or more ILEC central offices in Kentucky. The facilities must terminate to an active physical or virtual collocation (includes all types of collocation, not just hose qualifying under section 251 (c)(6)) at each end of the transport route) associated with each office of the pair and be operationally ready to provide transport into or out of each office in the pair.

MCI RESPONSE: MCI adopts and incorporates its General Objections 4, 5, 7, 8, 9, 13, 16, and 19, as if set forth herein verbatim. Subject to, and without waiving these objections, MCI states as follows: See Confidential Attachment C.

Response provided by: Objections provided by Counsel. Substantive response provided by Greg Darnell, MCI, 6 Concourse Parkway, Suite 600, Atlanta, Georgia 30328.

INTERROGATORY 4. For each state in Question 1 that you answered in the affirmative (that you have deployed or self-provide high capacity transport for use in your own operations), provide a list of all the paired ILEC CO to ILEC CO routes on which you have deployed such facilities identifying:

- a. The CLLI codes of the paired ILEC CO locations that make-up each and every route. In each case show the “low alpha” (alphabetically first) CLLI code as Wire Center A and the “high alpha” CLLI code as Wire Center Z. (Provide the full 11 character CLLI.)
- b. Whether your self-provided transport facilities are terminated to collocations (includes all types of collocation, not just those qualifying under section 251 (c)(6) at each end of the transport route). Provide the customer name of record for the collocation arrangement and 11-character ACTL CLLI code for the collocation arrangement.
- c. Whether you self-provide transport facilities are provisioned entirely on facilities you own (as defined in Question 1).
- d. If any of your self-provided transport facilities include facilities obtained through third parties (Yes, No); if your response is yes, indicate the vendor name.

- e. Indicate whether the facility is provided over dark fiber you have obtained from BellSouth on an IRU basis. (Yes, No)
- f. Whether you are able to immediately provide transport along the particular route.
- g. The capacity deployed and the capacity active on the route as of September 30, 2003.

MCI RESPONSE: MCI adopts and incorporates its General Objections 4, 5, 7, 8, 9, 10, 11, 13, 16, and 19, as if set forth herein verbatim. Subject to, and without waiving these objections, MCI states as follows with respect to 4(a): MCI has provided BellSouth with a list of its "On-Net" collocations. This list identifies the BellSouth wire center buildings that are physically on the network owned by MCI. Once traffic is delivered to MCI at any of its on-net collocation sites it can be delivered to any other MCI on-net collocation locations without leaving MCI's network. MCI engineers its network to provide services to end user customers. MCI does not engineer its network to move traffic between points on other carriers' (e.g., ILECs') networks. With respect to 4(f), MCI's ability to "immediately provide transport" between various points on its network depends on various factors, including customer demand, utilization of existing optronics systems, availability of spare fibers, and so on. MCI has furnished to BellSouth on a confidential basis the number of spare DS-3s in each "on net" collocation. Based on that information, BellSouth can contend that, for any MCI on-net collocation, spare DS-3 capacity exists and could be utilized to meet additional demand up to the DS-3 level. See Confidential Attachment A and confidential Attachment C.

Response provided by: Objections provided by Counsel. Substantive response provided by Greg Darnell, MCI, 6 Concourse Parkway, Suite 600, Atlanta, Georgia 30328.

- a. The CLLI codes of the paired ILEC CO locations that make up the end points of each and every route. In each case show the "low alpha"

(alphabetically first) CLLI code as Wire Center A and the “high alpha” CLLI code as Wire Center Z. (Provide the full 11 character CLLI.)

- b. Whether your wholesale transport facilities are terminated to collocations (includes all types of collocation, not just those qualifying under section 251 (c)(6) at each end of the transport route). Provide the customer name of record for the collocation arrangement and 11-character ACTL CLLI code for the collocation arrangement.
- c. Whether your wholesale transport facilities are provisioned entirely on facilities you own (as defined in Question 2).
- d. If any of your self-provided transport facilities include facilities obtained through third parties; indicate the vendor name.
- e. Indicate whether the facility is provided over dark fiber you have obtained from BellSouth on an IRU basis. (Yes, No)
- f. Whether you are willing and able to immediately provide transport along the particular route.
- g. The capacity deployed and the capacity active on the route as of September 30, 2003.

MCI RESPONSE: MCI adopts and incorporates its General Objections 4, 5, 7, 8, 9, 10, 11, 13, 16, and 19, as if set forth herein verbatim. Subject to, and without waiving these objections, MCI states as follows: See the response to Interrogatory No. 2.

Response provided by: Objections provided by Counsel. Substantive response provided by Greg Darnell, MCI, 6 Concourse Parkway, Suite 600, Atlanta, Georgia 30328.

INTERROGATORY 6. For each state in Question 3 that you answered in the affirmative (that you have acquired on a wholesale basis DS1, DS3 or higher, or dark

fiber transport), provide the following in electronic format using the worksheet related to both self-provided (the Question 4 spreadsheet) and wholesale facilities (the Question 5 spreadsheet):

- a. The CLLI codes of the ILEC wire centers or COs of the starting and ending points of the transport routes;
- b. The name of the carrier or company from whom you received or purchased the transport;

For example, if your wholesale operations are affiliated with another provider, state the name of the provider with whom you are affiliated. State also whether there are other limitations on your wholesale operations; if so, describe in detail any such limitations.

Answer this question in the affirmative if you are self-providing such facilities. For purposes of this question, you "own" a facility (i) if you have legal title to the facility, or (ii) if it you have obtained dark fiber under a long term (10 or more years) IRU and have attached your own optronics to light the facility and are serving customers using the facility. Facilities obtained through any other means, including but not limited to, special access, unbundled network elements or other services or facilities obtained from third parties, should not be included in this response.

INTERROGATORY 16. Provide a list of all BellSouth wire centers and/or central offices in Kentucky to which you have deployed high capacity transport facilities that are

operationally ready to provide dedicated transport along a route, directly, or indirectly through a location not affiliated with BellSouth, to one other BellSouth central office. The facilities must terminate to an active collocation arrangement. *This interrogatory varies from Interrogatory No. 1 in this docket as it seeks wire centers/central offices even if you are not actually providing transport from the locations; it also seeks wire centers/central offices that your facilities route through directly or indirectly. For example, in answering this Interrogatory, provide information about facilities that may indirectly provide transport along a route, for example, using the diagram below, the IXC transport route should be identified:*

BST wire center → IXC POP ← → IXC POP → BST wire center

For each central office or wire center that you list, identify:

- a. The CLLI code of the central office.
- b. The type of collocation at which the facilities terminate;
- c. The customer name of record for the collocation arrangement and the 11-character CLLI code for the collocation arrangement;
- d. Indicate whether the facilities are provided over dark fiber you have obtained from BellSouth;
- e. The total active capacity and number of fiber strands deployed as of the most recent date available;
- f. Whether you are able and able immediately to provide DS1 transport, on a wholesale basis, over the transport facilities;
- g. Whether you are willing and able immediately to provide DS3 transport, on a wholesale basis, over the transport facilities;

- h. Whether you are willing and able immediately to provide dark fiber transport, on a wholesale basis, over the transport facilities.

For each central office or wire center that you list, identify:

- a. The CLLI code of the central office.
- b. The type of collocation at which the facilities terminate;
- c. The customer name of record for the collocation arrangement and the 11-character CLLI code for the collocation arrangement
- d. The total active capacity and number of fiber strands deployed as of the most recent date available;
- e. The type of facility (e.g., fiber, coaxial cable, etc.).

MCI RESPONSE: MCI adopts and incorporates its General Objections 1, 2, 3, 4, 5, 7, 8, 9, 10, 13, 14, 16 and 18 as if set forth herein verbatim.

INTERROGATORY 17. For each central office/wire center identified in response to Interrogatory No. 16:

- a. Are your transport facilities operationally ready to provide dedicated transport between the central office/wire center identified and any other ILEC wire center on the same list?
- b. If your responses to part (a) above is negative, identify each such the ILEC central offices on the list that does not satisfy part (a) and explain with particularity why not.

MCI RESPONSE: MCI adopts and incorporates its General Objections 1, 2, 3, 4, 5, 7, 8, 9, 10, 13, 14, 16 and 18 as if set forth herein verbatim.

INTERROGATORY 18. Provide a list of all BellSouth wire centers and/or central offices in Kentucky from which you offer to other carriers on a wholesale basis DS1 or higher transport facilities, or dark fiber transport facilities that provide a route, directly, or indirectly through a location not affiliated with BellSouth, to one other BellSouth central office.
