In the Matter of:

REVIEW OF FEDERAL COMMUNICATIONS	)	
COMMISSION'S TRIENNIAL REVIEW ORDER	)	CASE
NO.		
REGARDING UNBUNDLING REQUIREMENTS	)	2003-00379
FOR INDIVIDUAL NETWORK ELEMENTS	)	

PETITION FOR CONFIDENTIALITY

Cinergy Communications Company (hereinafter "Movant") hereby requests that Exhibit E to its Response to BellSouth be provided confidential treatment by the Commission, pursuant to KRS 61.878 and 807 KAR 5:001, Section 7. This exhibit relates to Interrogatory 15 of BellSouth's second set of data requests. The Exhibit includes information concerning Movant's network design, including specific information concerning where Movant has chosen to collocate with BellSouth, equipment capacity, including DS0 equivalents, equipment location, and other information that would tend to reveal market penetration by wire center.

In support of its petition Movant states as follows:

1. The Commission issued an Order in this docket on November 4, 2003 providing for data requests on non-incumbent providers of local exchange services who are parties to this case. BellSouth propounded numerous requests to Movant and other CLEC parties.
2. Movant transmits herewith its responses to BellSouth, including certain confidential information in response to various interrogatories and requests for

- production.
3. Movant hereby seeks confidential treatment of its confidential exhibit. The supporting exhibit contains information which Movant deems to be proprietary and confidential and which should be afforded confidential treatment by the Commission.
  4. The confidential exhibit is not being filed electronically with the public filings in this case. The confidential exhibit is being provided to BellSouth pursuant to a protective agreement, and to the Commission.
  5. KRS. 61.870, et seq., requires that public agencies within the Commonwealth make available for inspection all public records. Certain exceptions to that general requirement are contained in KRS 61.878, which includes an exception for confidential or proprietary information. In order to qualify for this exception under KRS 61.878(1)(c), a party must demonstrate that disclosure of its commercial information would permit an unfair commercial advantage to its competitors. The procedure for requesting confidential treatment from the Commission is outlined at 807 KAR 5:001, Section 7.
  6. The information contained in Movant 's supporting exhibit includes data that Movant believes contains proprietary and commercial information that would permit an unfair advantage to competitors, including competitors who may have chosen not to participate in this docket. Accordingly, Movant requests the Commission to afford confidentiality to this information pursuant to the exception provided in KRS 61.878(1)(c). This information, if disclosed, would cause irreparable harm to Movant. A competitor could use the data to obtain market

information about the Company and its business plans. Further, in a competitive market, any information gained about a competitor can be used to that competitor's detriment. Such an unfair competitive advantage skews the marketplace and prevents the development of true competition to the ultimate detriment of the consumer.

7. Disclosure of confidential information of this nature will be detrimental to Movant because it contains data that is not otherwise available to the Company's competitors. Once supplied with this information, a competitor could use it to target their marketing efforts to the detriment of Movant. The information sought to be protected is not known outside Movant, nor is it provided to the public; its internal use is restricted to only those employees who have a legitimate business reason for reviewing such, and the Company attempts to control the dissemination of this material through all reasonable means. Indeed, by granting the Company's petition, the public interest will be served because competition will be protected.

WHEREFORE, Movant respectfully requests that the Commission enter an order granting confidential treatment of the information contained in the accompanying exhibit.

Respectfully submitted,
